Domestic Postage.

FIRST CLASS.—Letters and all written matter, whether sealed or unsealed, and all other matter sealed, nailed, sewed, tied, or fastened in any manner, so that it cannot be easily examined, **two cents per ounce** or fraction thereof. A "Special Delivery" ten-cent stamp, when attached to a letter in addition to the lawful postage, entitles the letter to immediate delivery at, or within one mile of, any post-office. Postal cards, one cent each; with paid reply, two cents each.

SECOND CLASS.—All regular newspapers, magazines, and other periodicals issued at stated intervals, at least four times a year; the postage is **one cent for each four ounces**, payable by postage stamps.

THIRD CLASS.—Embraces **printed books**, pamphlets, circulars, engravings, lithographs, proof-sheets and manuscript accompanying the same, and all matter of the same general character, and not having the character of personal correspondence. Circulars produced by hektograph or similar process, or by electric pen, are rated as third class when mailed in lots of twenty or more. The limit of weight for mail matter of the third class is four pounds, except in the case of single books exceeding that weight. The rate of postage on mail matter of the third class is **one cent for each two ounces** or fraction thereof.

FOURTH CLASS.—All mailable matter, not included in the three preceding classes, which is so prepared for mailing as to be easily taken from the wrapper and examined. Rate, **one cent per ounce** or fraction thereof, except seeds, roots, cuttings, bulbs, plants, and scions, which are **one cent per two ounces**. Limit of weight, 4 lbs. Full prepayment compulsory. Liquids, and other like injurious matter, not admitted, except under conditions which may be learned at any post-office.

Register all valuable letters and packages. **Registry fee, eight cents**, which, with the postage, must be fully prepaid.

FEES CHARGED FOR MONEY-ORDERS.—For Money-Orders in denominations of \$100 or less, the following fees are charged: For orders for sums not exceeding \$2.50, 3 cts.; \$2.50 to \$5, 5 cts.; \$5 to \$10, 8 cts.; \$10 to \$20, 10 cts.; \$20 to \$30, 12 cts.; \$30 to \$40, 15 cts.; \$40 to \$50, 18 cts.; \$50 to \$60, 20 cts.; \$60 to \$75, 25 cts.; \$75 to \$100, 30 cts.

Foreign Postage.

To all Foreign Countries (except Canada and Mexico):

On Letters, **five cents for each half ounce** or fraction thereof—prepayment optional. Double rates are collected on delivery of unpaid or short-paid letters.

International Postal Card, two cents.

On Newspapers, Books, Pamphlets, Photographs, Sheet Music, Maps, Engravings, and similar printed matter, **one cent for each two ounces** or fraction thereof.

All matter except Letters must be prepaid. Letters and other packages may be registered on payment of a fee of eight cents.

To **CANADA** (including Nova Scotia, New Brunswick, Manitoba, and Prince Edward Island): **LETTERS, two cents for each ounce** or fraction thereof; Books, Circulars, and similar printed matter, **one cent for each two ounces** or fraction thereof; **SECOND CLASS MATTER** same as in the United States; **SAMPLES, one cent per two ounces** (must be paid at least two cents); **MERCHANDISE, one cent per ounce**. Packages must not exceed 4 lbs. in weight—prepayment compulsory. No *sealed* packages other than letters in their usual and ordinary form may be sent by mail to Canada.

To **MEXICO**: Letters, Postal Cards, and printed matter, same rates as in the United States. **SAMPLES, one cent per two ounces**; **MERCHANDISE** other than samples can only be sent by Parcel Post. No *sealed* packages other than letters in their usual and ordinary form may be sent by mail.

To **PHILIPPINES, CUBA, GUAM, PORTO RICO, TUTUILA, and HAWAII**, same rates as in the United States.

LIMITS OF SIZE AND WEIGHT: Packages of samples of merchandise to all countries must not exceed 12 ozs., nor measure more than 12 inches in length, 8 in breadth, and 4 in depth; and packages of printed matter must not exceed 4 lbs. 6 ozs.

INTERNATIONAL OR FOREIGN MONEY-ORDER FEES.—On Money Orders payable in foreign countries the following fees are charged: For Orders for sums of \$10 or less, 10 cents; \$10 to \$20, 20 cents; \$20 to \$30, 30 cents; \$30 to \$40, 40 cents; \$40 to \$50, 50 cents; \$50 to \$60, 60 cents; \$60 to \$70, 70 cents; \$70 to \$80, 80 cents; \$80 to \$90, 90 cents; \$90 to \$100, \$1.00.

Rules for Computing Interest.

The following will be found to be excellent rules for finding the interest on any principal for any number of days. When the principal contains cents, point off four places from the right of the result to express the interest in dollars and cents. When the principal contains dollars only, point off two places.

Four per Cent.—Multiply the principal by the number of days to run, and divide by 90.

Five per Cent.—Multiply by number of days, and divide by 72.

Six per Cent.—Multiply by number of days, and divide by 60.

Seven per Cent.—Multiply by number of days, and divide by 52.

Eight per Cent.—Multiply by number of days, and divide by 45.

Nine per Cent.—Multiply by number of days, and divide by 40.

Ten per Cent.—Multiply by number of days, and divide by 36.

Twelve per Cent.—Multiply by number of days, and divide by 30.

Fifteen per Cent.—Multiply by number of days, and divide by 24.

Eighteen per Cent.—Multiply by number of days, and divide by 20.

Twenty per Cent.—Multiply by number of days, and divide by 18.

Twenty-four per Cent.—Multiply by number of days, and divide by 15.

Rate of Income on Stocks.

Purchased at the following prices (par value being \$100), and bearing interest at the following rates:

This Table is based upon the usual calculation of 9 hours to a day.

Weights—Measures.

MEASURES OF WEIGHT.—*Avoirdupois*: 1 pound equals 7000 grains; 16 drams, 1 ounce; 16 ounces, 1 pound; 112 pounds, 1 hundredweight; 20 hundredweight, 1 ton. *Troy*: 1 pound equals 5760 grains; 24 grains, 1 pennyweight; 20 pennyweights, 1 ounce; 12 ounces, 1 pound. *Apothecaries'*: 1 pound equals 5760 grains; 20 grains, 1 scruple; 3 scruples, 1 dram; 8 drams, 1 ounce; 12 ounces, 1 pound. *Metric*: 1 kilogramme equals 1000 grammes, equals 2.2 Avoirdupois pounds.

MEASURES OF LENGTH.—*Customary*: 12 inches equal 1 foot; 16½ feet, 1 rod; 40 rods, 1 furlong; 8 furlongs, 1 statute mile; 1 statute mile, 5280 feet or 1760 yards; 1 marine league, 3 nautical miles; 1 fathom, 6 feet; 1 nautical mile equals 6080.2 feet. *Metric*: 1000 millimetres equal 1 metre; 1000 metres, 1 kilometre; 1 metre equals 39.37 inches.

SURFACE OR SQUARE MEASURE.—*Customary*: 144 square inches equal 1 square foot; 9 square feet, 1 square yard; 30.25 square yards, 1 square rod; 40 square rods, 1 square rood; 4 square roods, 1 acre; 640 acres, 1 square mile; 1 acre equals 208.7 feet square. *Metric*: 1 square metre equals 10.764 square feet; 100 square metres equal 1 are; 1 hectare equals 100 ares, or 2.471 acres.

SOLID OR CUBIC MEASURE.—*Customary*: 1728 cubic inches equal 1 cubic foot; 27 cubic feet, 1 cubic yard; 40 cubic feet of round timber, 1 ton; 50 cubic feet of hewn timber, 1 ton; 128 cubic feet of wood (4 feet by 4 feet by 8 feet), 1 cord; 24.75 cubic feet of stone, 1 perch—usually 16½ feet by 1½ feet by 1 foot, but varies greatly. *Metric*: 1000 cubic centimetres equal 1 litre; 1 litre equals 1.0567 quarts.

LIQUID MEASURE.—English gallon equals 277.274 cubic inches, or 1.20032 U. S. gallons; 4 gills, 1 pint; 2 pints, 1 quart; 4 quarts, 1 gallon.

DRY MEASURE.—1 bushel equals 2150.42 cubic inches; 2 pints, 1 quart; 4 quarts, 1 gallon; 2 gallons, 1 peck; 4 pecks, 1 bushel. *Metric*: 10 millilitres equal 1 centilitre; 10 centilitres, 1 decilitre; 10 decilitres, 1 litre; 1 litre, 0.908 dry quart.

CAPACITY OF BOXES.

25 in. sq.,	11.66 in. deep	=	Approx. 1 wine barrel.
20 " "	9.10 " "	=	1 wine half barrel.
17 " x 14 in.	9.00 " "	=	1 bushel.
10 " x 12 "	9.00 " "	=	½ "
8 " sq.,	8.40 " "	=	1 peck.
8 " "	4.20 " "	=	1 gal. (dry measure).
7 " diam.,	6.00 " "	=	1 gal. (liquid measure).

The Metric System.

The Metric System of Weights and Measures has been legalized by act of Congress, July 18, 1896.

METRIC WEIGHTS.—10 milligrams make 1 centigram, 10 centigrams 1 decigram, 10 decigrams 1 gram, 10 grams 1 dekagram, 10 dekagrams 1 hektogram, 10 hektograms 1 kilogram, 1,000 kilograms 1 metric ton.

METRIC MEASURES.—(One milliliter equals cubic centimeter.) 10 milliliters make 1 centiliter, 10 centiliters 1 deciliter, 10 deciliters 1 liter, 10 liters 1 dekaliter, 10 dekaliters 1 hektoliter, 10 hektoliters 1 kiloliter.

METRIC LENGTHS.—10 millimeters make 1 centimeter, 10 centimeters 1 decimeter, 10 decimeters 1 meter, 10 meters 1 dekameter, 10 dekameters 1 hektometer, 10 hektometers 1 kilometer.

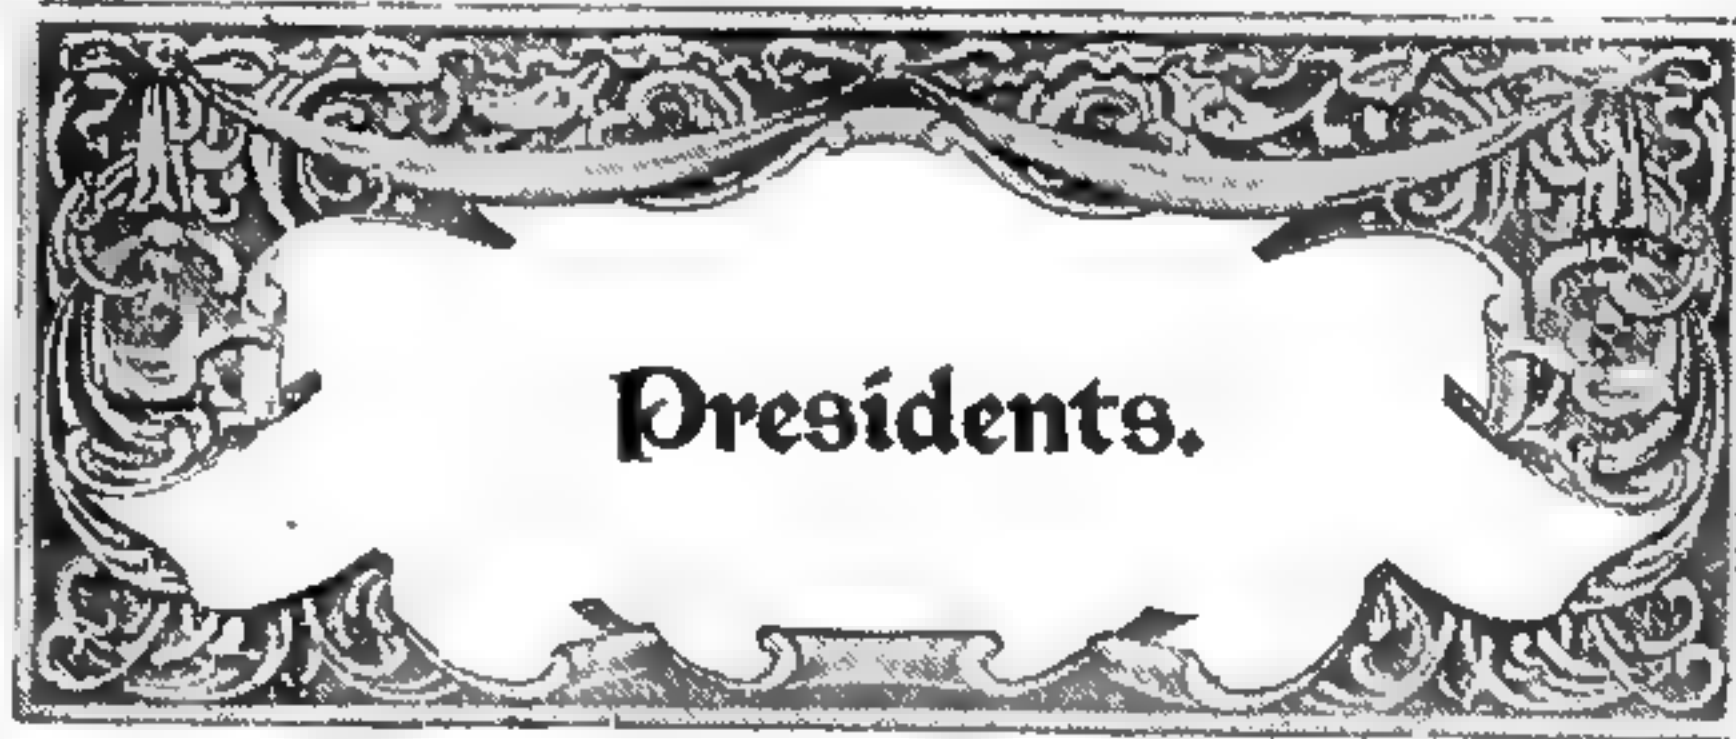

APPROXIMATE EQUIVALENTS.

A meter is about a yard; a kilo is about 2 pounds; a liter is about a quart; a centimeter is about ½ inch; a metric ton is about same as an ordinary ton; a kilometer is about ½ mile; a cubic centimeter is about a thimbleful. A nickel five-cent piece of our coinage is a handy key to metric measures and weights. It is two centimeters in diameter and weighs five grams.

PRECISE EQUIVALENTS.

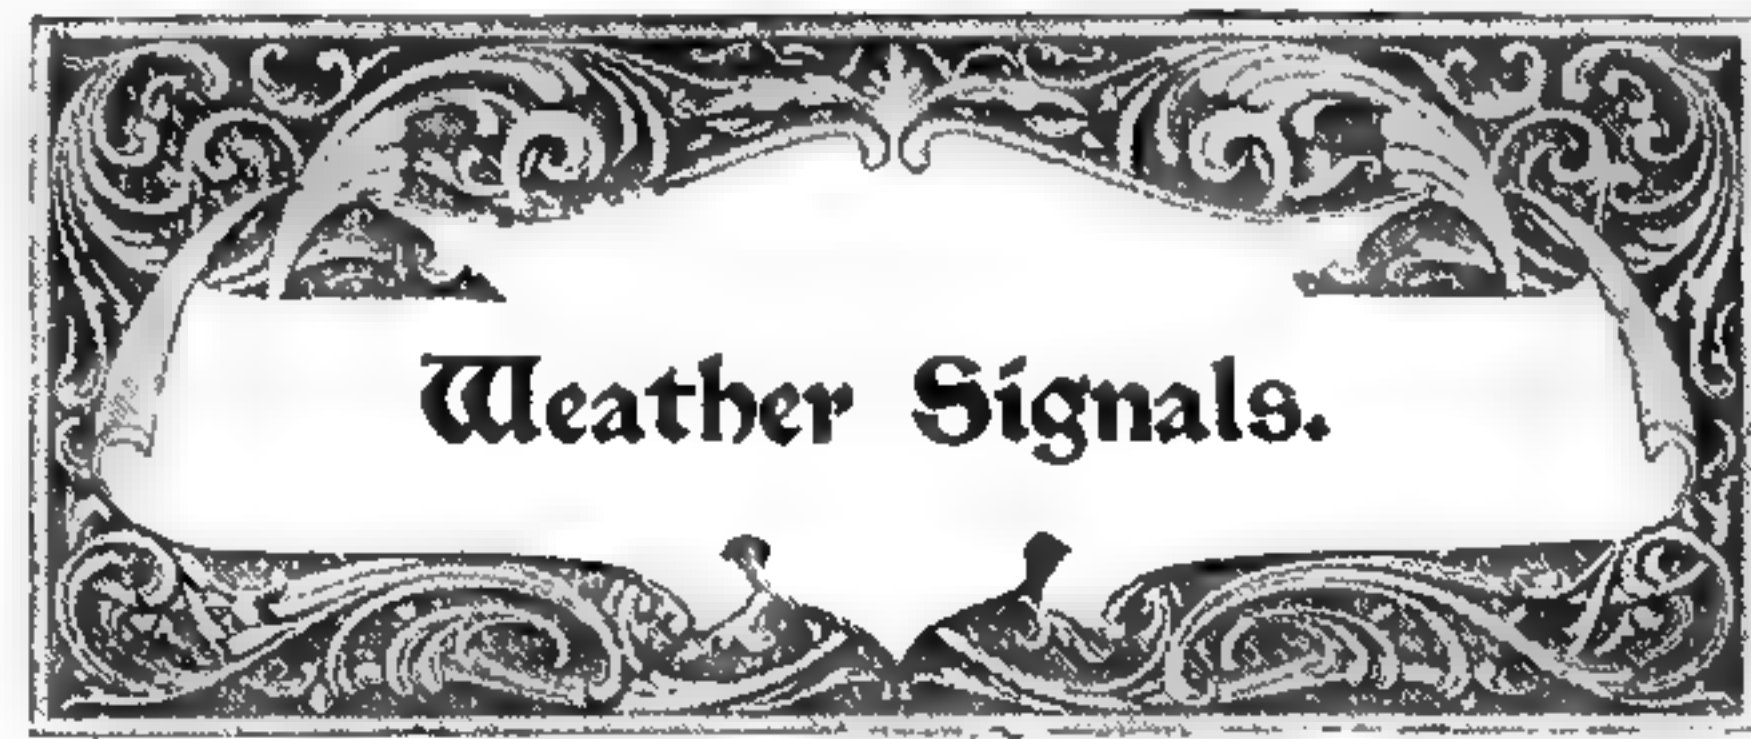

1 acre equals .4047 hectar; 1 bushel, 35.24 liters; 1 centimeter .3937 inch; 1 cubic centimeter, .0610 cubic inch; 1 cubic foot, .0283 cubic meter; 1 cubic inch, 16.39 cubic cent.; 1 cubic meter, 35.31 cubic feet; 1 cubic meter, 1.308 cubic yards; 1 cubic yard, .7645 cubic meter; 1 foot, 30.48 centimeters; 1 gallon, 3.785 liters; 1 grain, .0648 gram; 1 gram, 15.43 grains; 1 hectar, 2.471 acres; 1 inch, 25.40 millimeters; 1 kilogram, 2.05 pounds; 1 kilometer, .6214 mile; 1 liter, .9081 quart (dry); 1 liter, 1.057 quart (liquid); 1 meter, 3.281 feet; 1 mile, 1.609 kilometers; 1 millimeter, .0394 inch; 1 ounce (avd.), 28.35 grams; 1 ounce (Troy), 31.10 grams; 1 peck, 8.809 liters; 1 pint, .4732 liter; 1 pound, .4536 kilogram; 1 quart (dry), 1.101 liters; 1 quart (liquid), .9464 liter; 1 sq. centimeter, .1550 sq. inch; 1 sq. foot, .0927 sq. meter; 1 sq. inch, 6.452 sq. cent.; 1 sq. meter, 1.196 sq. yards; 1 sq. meter, 10.76 sq. feet; 1 sq. yard, .8361 sq. meter; 1 ton (2,000 lbs.), .9072 metric ton; 1 ton (2,240 lbs.), 1.017 metric ton; 1 ton (metric), 1.102 ton (2,000 lbs.); 1 ton (metric), 9.842 ton (2,240 lbs.); 1 yard, .9144 meter.

PRESIDENTS OF THE UNITED STATES.

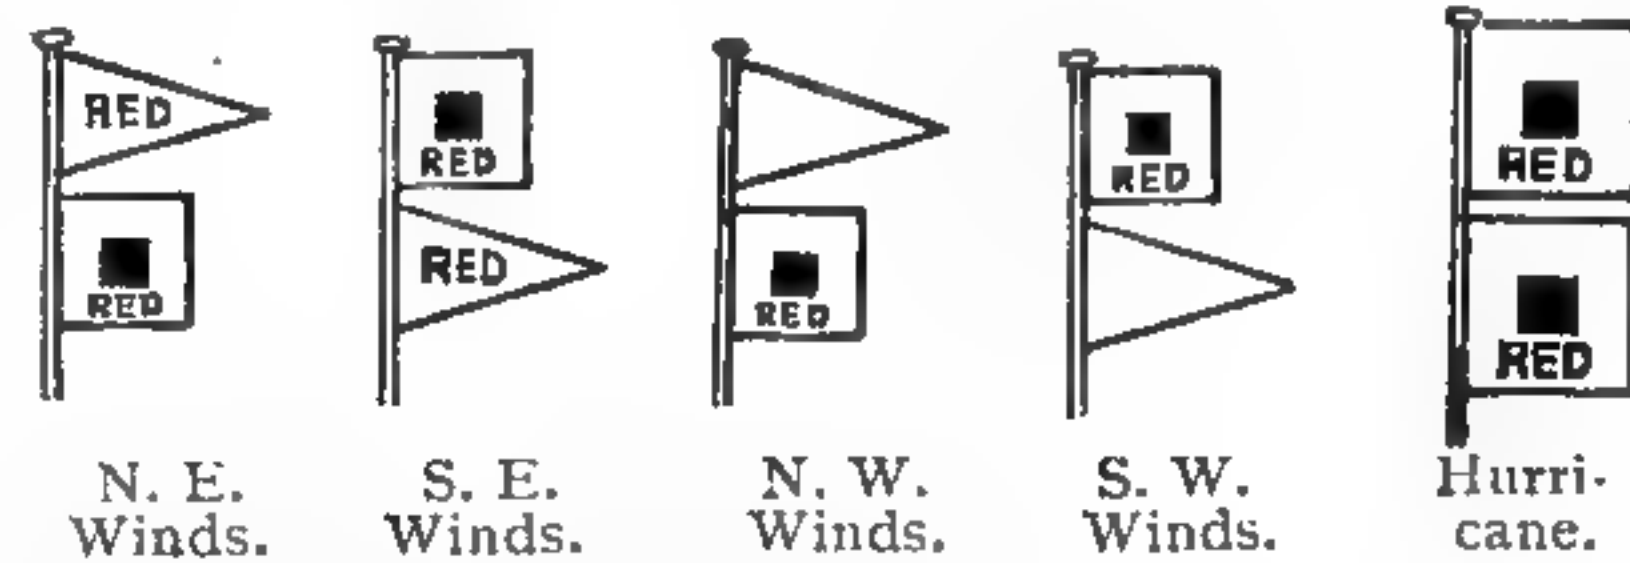

Names.	Born.	Inaugurated.	In Office.	Died.	Native of
George Washington.	Feb. 22, 1732	April 30, 1789	8 years.	Dec. 14, 1799	Virginia.
John Adams.	Oct. 30, 1735	Mar. 4, 1797	4 "	July 4, 1826	Mass.
Thomas Jefferson.	April 2, 1743	" 4, 1801	8 "	July 4, 1826	Virginia.
James Madison.	Mar. 16, 1751	" 4, 1809	8 "	June 28, 1836	"
James Monroe.	April 2, 1759	" 4, 1817	8 "	July 4, 1831	"
John Quincy Adams.	July 11, 1767	" 4, 1825	4 "	Feb. 23, 1848	Mass.

William H. Harrison.	Feb. 9, 1773	" 4, 1841	1 month.	April 4, 1841	Virginia.
John Tyler.	Mar. 20, 1790	April 5, 1841	3 yrs. 11 m.	Jan. 17, 1862	"
James K. Polk.	Nov. 2, 1795	Mar. 4, 1845	4 years.	June 15, 1849	N. Carol.
Zachary Taylor.	Nov. 24, 1790	" 4, 1849	1 yr. 4 m.	July 9, 1850	Virginia.
Millard Fillmore.	May 7, 1800	July 10, 1850	2 yrs. 8 m.	Mar. 8, 1874	New York.
Franklin Pierce.	Nov. 23, 1804	Mar. 4, 1853	4 years.	Oct. 8, 1869	N. Hamp.
James Buchanan.	April 23, 1791	" 4, 1857	4 "	June 1, 1868	Pennsylvania.
Abraham Lincoln.	Feb. 12, 1809	" 4, 1861	4 yrs. 40 d.	April 15, 1865	Kentucky.
Andrew Johnson.	Dec. 29, 1808	April 15, 1865	3 yrs. 11 m.	July 31, 1875	N. Carol.
Ulysses S. Grant.	April 27, 1822	Mar. 4, 1869	8 years.	July 23, 1885	Ohio.
Rutherford B. Hayes.	Oct. 4, 1822	" 5, 1877	4 "	Jan. 17, 1893	"
James A. Garfield.	Nov. 19, 1831	" 4, 1881	6 m. 15 d.	Sept. 19, 1881	Vermont.
Chester A. Arthur.	Oct. 5, 1830	Sept. 19, 1881	3 yrs. 5 m.	Nov. 18, 1886	"
Grover Cleveland.	Mar. 18, 1837	Mar. 4, 1885	4 years.	"	N. Jersey.
Benjamin Harrison.	Aug. 20, 1833	" 4, 1889	4 "	Mar. 13, 1901	Ohio.
Grover Cleveland.	Mar. 18, 1837	" 4, 1893	4 "	"	N. Jersey.
William McKinley.	Jan. 29, 1843	" 4, 1897	4 yrs. 6 m.	Sept. 14, 1901	Ohio.
Theodore Roosevelt.	Oct. 27, 1858	Sept. 14, 1901	"	"	New York.

Weather Signals.

No. 1, alone, indicates fair weather, stationary temperature.
 No. 2, alone, indicates rain or snow, stationary temperature.
 No. 3, alone, indicates local rain or snow, stationary temperature.
 No. 1, with No. 4 above it, indicates fair weather, warmer.
 No. 1, with No. 4 below it, indicates fair weather, colder.
 No. 2, with No. 4 above it, indicates rain or snow, warmer.
 No. 2, with No. 4 below it, indicates rain or snow, colder.
 No. 3, with No. 4 above it, indicates local rain or snow, warmer.
 No. 3, with No. 4 below it, indicates local rain or snow, colder.

STORM AND HURRICANE WARNINGS.

STORM WARNINGS.—A red flag with a black center indicates a storm of marked violence.
 The pennants displayed with flags indicate direction of wind—red, easterly; white, westerly; pennant above flag indicates wind from northerly quadrants; below, from southerly quadrants.
 By night a red light indicates easterly winds, white light above red, westerly winds.
 Two red flags with black centers indicate approach of tropical hurricanes.
 No night hurricane signals are displayed.

Principal Cities.

POPULATION, DISTANCE FROM NEW-YORK, AND DIFFERENCE BETWEEN MEAN AND STANDARD TIME.

Explanation of the Currencies of the various Countries.

AUSTRIA AND RUSSIA—The Paper Currencies are continually subject to important fluctuations.

In FRANCE, BELGIUM, SWITZERLAND, AND ITALY, 1 franc=100 centimes. GERMANY, 1 mark=100 pfennig. HOLLAND, 1 florin or gulden=100 cents. NORWAY, SWEDEN, AND DENMARK, 1 kroner=100 öre. UNITED STATES, 1 dollar=100 cents. SPAIN, 1 peseta=100 centavos. AUSTRIA, 1 florin=100 kreuzer. PORTUGAL, 1 milreis=1000 reis. GREECE, 1 drachma=100 leptas. TURKEY 1 piaster=40 paras. RUSSIA, 1 rouble=100 copecks.

Italian notes and silver are not current in France, Belgium, and Switzerland, but the silver of these countries passes current in Italy.

Help in Case of Accidents.

DROWNING.—1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach, and lifting it by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils, and pressing the "Adam's apple" back (so as to close entrance to stomach), direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. **DON'T GIVE UP!** People have been saved after HOURS of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give WARM drinks, or spirits in teaspoonfuls, fresh air, and quiet.

SUNSTROKE.—There are two important indications for treatment—reduction of temperature and the use of stimulants. The patient should first be removed to a cooler spot if possible, or at least where shade can be secured. The treatment should be begun at once. The clothing about the neck and body must be either loosened or removed. Cold is particularly indicated in cases where there is great heat of the body, and delirium and convulsive movements are present. This means of reducing the temperature may be applied in the shape of cracked ice about the head and spine, or the use of cold water. If the heat of the body is very great, it may be necessary to wrap the patient in sheets wet with cold water. If there is, besides the great heat, evidence of serious depression, stimulants must be used while the cold is being applied.

HÆMORRHAGE.—The usual treatment is rest in the recumbent position; small pieces of ice should be freely swallowed, and the application of ice wrapped in a towel or in an ice-bag, or snow, cold water, etc., over the stomach; hot applications may be applied to the extremities.

FIRE IN A BUILDING.—Crawl on the floor. The clearest air is the lowest in the room. Cover head with woolen wrap, wet if possible. Cut holes for the eyes. *Don't get excited.*

Help in Case of Accidents.

BURNS AND SCALDS.—Cover with cooking soda and lay wet cloths over it. Whites of eggs and olive oil. Olive oil or linseed oil, plain, or mixed with chalk or whiting. Sweet or olive oil and lime-water. Shock, which is always present in severe burns, requires the administration of stimulants. Pain is more constant and intense in burns than in any other form of injury, and requires sedatives, which should be administered by the medical attendant. Later on the appearances of inflammation and other complications are to be carefully watched for.

SUFFOCATION FROM INHALING ILLUMINATING GAS.—Get into the fresh air as soon as possible and lie down. Keep warm. Take ammonia—twenty drops to a tumbler of water, at frequent intervals; also, two to four drops tincture of nux vomica every hour or two for five or six hours.

TESTS OF DEATH.—Hold mirror to mouth. If living, moisture will gather. Push pin into flesh. If dead, the hole will remain; if alive, it will close up. Place fingers in front of a strong light. If alive, they will appear red; if dead, black or dark.

MAD DOG OR SNAKE-BITE.—Tie cord tight above wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife. Give stimulants, as whisky, brandy, etc.

FIRE IN ONE'S CLOTHING.—*Don't run*—especially not downstairs or out-of-doors. Roll on carpet, or wrap in woolen rug or blanket. Keep the head down, so as not to inhale flame.

FIRE FROM KEROSENE.—*Don't use water*, it will spread the flames. Dirt, sand, or flour is the best extinguisher, or smother with woolen rug, table-cloth, or carpet.

CINDERS IN THE EYE.—Roll soft paper up like a lamp lighter, and wet the tip to remove, or use a medicine dropper to draw it out. Rub the *other* eye.

FAINTING.—Place flat on back; allow fresh air, and sprinkle with water. Place head lower than rest of body.

STINGS OF VENOMOUS INSECTS, ETC.—Apply weak ammonia, oil, salt water, or iodine.

LIGHTNING.—Dash cold water over a person struck.

Poisons and Antidotes.

FIRST.—Send for a physician.

SECOND.—**INDUCE VOMITING**, by tickling throat with feather or finger. Drink hot water or strong mustard and water. Swallow sweet oil or whites of eggs.

Acids are antidotes for alkalis, and vice versa.

ACIDS, MINERAL.—Chalk, magnesia (plaster off wall in emergency), solution carbonate of soda, emollient drinks, fixed oils.

ACID, CARBOLIC.—Any soluble sulphate, such as magnesia.

ACID, HYDROCYANIC.—Fresh air and artificial respiration, with cold effusion. Ammonia by inhalation and intravenously in vein of leg.

ACONITE.—Emetics, stimulants, external and internal; keep up external heat, keep flat on back.

ANTIMONY TART.—Vegetable acids, such as tannic acid, catechu.

ARSENIC.—Freshly precipitated hydrated sesquioxide of iron made by adding magnesia to any iron solution.

ATROPIA.—Same as Belladonna.

BELLADONNA.—Emetics—mustard flour in water; give physostigma or pilocarpine; cold to head.

CANTHARIDES.—Emetics, emollient drinks, opiates by mouth and rectum, large draughts of water to flush kidneys.

CHLORINE WATER.—Albumen, white of egg, milk, flour.

CHLOROFORM.—Fresh air, artificial respiration (inclining head down, pull tongue forward), brandy and ammonia intravenously in leg, the **HYPODERMIC** injection of 15 m. tincture of digitalis and 1-60 of a grain of atropine.

COLCHICUM.—Emetics, followed by demulcent drinks. If coma be present brandy, ammonia, coffee. Opium in large dose. Keep up external heat.

CONIUM.—Emetics, followed by stimulants external and internal.

CORROSIVE SUBLIMATE.—Albumen, white of egg (4 gr. sublimate require white of one egg), flour, milk. Equal parts of lime water and milk. Emetics, or evacuate stomach by pump.

Poisons and Antidotes.

COPPER SULPH.—Yellow prussiate of potash or soap.

CROTON OIL.—Emetics; wash out stomach, followed by mucilaginous fluids, containing opium.

DIGITALIS.—Recumbent posture after emetics. Emetics and opium; give tincture aconite.

ELATERIUM.—Demulcent drinks, enemata of opium, and external heat.

HYOSCYAMUS.—Stomach pump, emetics, stimulants external and internal, physostigma and pilocarpine.

ILLUMINATING GAS.—Hypodermic injections of nitroglycerin are recommended by Kloman, of Baltimore.

IODINE.—Emetics and demulcent drinks, starch or flour diffused in water, opium and external heat.

LEAD SALTS.—Any soluble sulphate, either magnesia or soda, succeeded by emetics, and afterwards by opium and milk.

LOBELLA.—Stimulants externally and internally; external heat.

MORPHINE.—Same as opium.

NUX VOMICA.—30 grs. of chloral and 60 grs. of bromide of potash. Nitrite of amyl.

OPIUM.—Atropine hypodermically till respirations number 8 per minute. Stomach pump, stimulants, external and internal, brandy and coffee, cold affusion, ammonia to nostrils, galvanic shocks, compelling to move about, artificial respiration, electric brush. Permanganate of Potash.

OXALIC ACID.—Lime, not potash or soda.

PHOSPHORUS.—Sulphate of copper in emetic dose as chemical antidote. No oils. Emetics and purgatives.

POTASH AND SODA SALTS.—Dilute acetic acid, citric acid, lemon juice, fixed oils, demulcents, vinegar.

SILVER NITRATE.—Solution of common salt and demulcent drinks. Emetics.

STRAMONIUM.—Same as Belladonna.

STRYCHNINE.—Same as Nux Vomica.

TOBACCO.—Emetic, stimulants, external and internal, strychnine, external heat.

ZINC SALTS.—Carbonate of soda, emetics, warm demulcent drinks.

Things Easily forgotten.

Cambridge - Boston

Wea.

MON. JAN. 1, 1906

Ther.

Clear and somewhat cooler but yet mild for a winter day. A little snow fell last night and the trees were beautifully powdered with it in the early morning but it was nearly all gone by noon.

Spent day in Museum working on M. S. of Cambridge Birds. Met all meeting this evening - ten members present. I read extracts from the Introduction to Cambridge Birds. They were rather coldly received, I thought.

Wea.

TUESDAY 2

Ther.

Clear and decidedly colder, 20° min.

To Boston at 9 a.m. Stopped by the way at Charlestown where I called on Dr. A. H. Felt & saw his collection of mounted birds. Among them are an *Spizella Spizella* & a *Sparrow Hawk* which he has shot recently near his hospital on the Charlestown Neck lands. Reaching Boston at 11 I spent about two hours in Felt's work collecting material on Hospital by notes etc. To Museum Comp. Zoology at 2:30. Packed out some birds for an express.

Cambridge.

Wea. WED. JAN. 3, 1906 Ther.

Clear with fine crisp air, not really cold.

Spent day in Museum working on proof sheets of Cambridge Birds no callers. Alvin Allen lunch with C. & me.

Wea. THURSDAY 4 Ther.

About 2 inches of snow last night carried away by warm rain that fell all the forenoon today. The sky cleared this evening.

Spent entire day revising ms. of Cambridge Birds. no callers. A ♂ Downy & several Chickadees visited the seeds by the museum.

Dr. & Mrs. Gehring arrived at Hotel Bellevue this evening. I talked with them by telephone. They go to New York to-morrow & back for Egypt on Saturday.

Cambridge.

Wea. FRI. JAN. 5, 1906 Ther.

Cloudy & mild but chilly. It has not frozen for the past 48 hours. No snow or ice to be seen hereabouts.

Spent day in Museum working on proof sheets of Cambridge Birds. We have just reached *Icterioides*. I have finished revising the morning m.s.

C. went in town to say good bye to the Gehrings. I was prevented from doing so by a bad cold. Roland H. dined with me at 1 P.M.

Wea. SATURDAY 6 Ther.

Cloudy with flurries of snow. Still mild.

Spent day in Museum working on proof of Cam: Birds. Six fresh galleys have just come from the printer carrying the matter into *Tingella* etc. no callers. (4) Chickadees at seed. Walter & Margie gave a short dinner this evening. C. went but I was kept in by my cold which is better, however.

Cambridge.

Wea.

SUN. JAN. 7, 1906

Ther. 24°

Clear & cool with brisk N.W. wind

Spent forenoon in Museum working on proof of Camb. Birds, Mr & Mrs. John E. Thayer, Will & Alice Stone, Bessy Jefferson & Walter Deam dined with C. & me at 1.30. The Stones stayed until 5.30. Lois Howe called before they left. C. read Sven Heden to me in the evening. No birds in garden. Gulls flying over. Fish Pond open.

Wea.

MONDAY 8

Ther.

Cloudy & cold or at least chilly. The ground hard frozen & covered with snow.

Walter & I had a field day in the Museum with a big batch of page proof. I had to write a good deal of fresh matter to make some of the pages come out right no matter. A Skunk in the Garden this morning eating a Sparrow & later singing a little, feebly & brokenly. C. read Sven Heden to me this evening. My cold better.

Cambridge.

Wea.

TUES. JAN. 9, 1906

Ther. 12° min.

Clear and cold

Spent day in Museum working on Cambridge Birds. C. left Cambridge at 3 P.M. going in to for a month of rest & change at the Abbotsford. I walked to Mt. Auburn Street with her.

Purdie is to stay with me through the week. He joined me about 5 P.M. We spent the evening talking in my den.

Wea

WEDNESDAY 10

Ther. 6° min.

Clear and still colder.

Spent day in Museum working on proofs Birds of Cambridge. Purdie & I sat in the den again this evening. Bees called. The Mass Fish & Game Protection Association elected me as their President this evening. I had hoped to attend their meeting but my cold prevented.

Cambridge - Boston.

Wea. THUR. JAN. 11, 1906 Ther.

Sunny with gathering clouds. Warm.

Spent day in Museum
working on page proofs of
Cambridge Birds.

To Townsend's for a
We Dine dinner at 7 P.M.,
dining in. Putnam, Deane,
Rosen, Goodale, Spelman, Jaffari,
Rauil, Townsend & myself.

We had roast lamb & a black
bean. Townsend took letters from
Hortia from Cheta.

Wea. FRIDAY 12 Ther.

Cloudy with heavy rain.

Spent day in Museum
working on proof of Cambridge
Birds. Purdie read the
paper to me in the evening
& we talked. C. came out
in late P.M. to attend her
man but she returned to
the Abbotsford for the
night.

Cambridge - Boston.

Wea. SAT. JAN. 13, 1906 Ther.

Spent day in Museum
working on proof of Cambridge
Birds.

Wea. SUNDAY 14 Ther.

Snowing all A.M. about 3 inches
falling & following the sun.

Spent A.M. in Museum
writing letters etc. Walter & Gilbert
then helping me. Purdie left at
10 A.M. I drove to the Abbotsford
in a couple of hours. Spent P.M.
& evening with C. At 9 P.M. met
Mr. Kimball at Copley Square Hotel
& had a long talk about M.F.S.
Purdie, etc. matters. Spent night at
the Abbotsford.

Washington.

Wea.

MON. JAN. 15, 1906

Ther.

A. M. Sunny; P. M. Cloudy.

Left Boston at 8.45 a. m. & reached Washington at 9.45 P. M. C. walked to the Dartmouth St. station to see me off & H. W. H. met me at the station in W.

I went directly to Mrs. Baker's 1905-16th St. where I am to stay. About 3 in of snow in Mass. the heaviest dust in Conn., none whatever south of New York. Saw cows out at pasture in Conn.

Wea.

TUESDAY 16

Ther.

Cloudy & chilly but not freezing.

Spent day at Smithsonian Inst. at A. O. U. Council meeting in the bird gallery. Present Allen, Bateby, Dwight, Lucas, Merriam, Ridgway, Richmond. In P. M. we had as guests Gill, Osgood & Oberholser.

The Code Committee will be continued as there work is not done.

Dined with H. W. H. at the Portico. He came back with me & we talked until 9 P. M.

Washington.

Wea.

WED. JAN. 17, 1906

Ther.

Clear & cool freezing a little. Grass very green here.

Nomenclature Com. in session all day in the Smiths. gallery. Allen, Dwight, Merriam, Ridgway, Richmond & I. Chapman also there looking up Wooblers for his book. He, Allen & I lunched at Nat. Mus. Met there Osgood & his friend Sheldon, a big game hunter. Spent evening at Merriam's. Charles Sheldon & Dwight there

Wea.

THURSDAY 18

Ther.

Clear and warm with S. W. wind. To Dept. Agriculture at 9.30 Saw Merriam, Henshaw, Palmer, Oberholser, Osgood & Beale. Nomenclature Committee met at 10.30. Present Allen, Dwight, Merriam, Ridgway, Richmond. We did a good days work. Lunched with Allen & Merriam. Home to dinner at 6. Henry called at 7 & told me to theater to see Ben Greer Co. in Merchant of Venice. It was well done

Washington.

Wea.

FRI. JAN. 19, 1906

Ther.

Forenoon sunny; afternoon cloudy. Very mild.

Merriman called for me at 9 a.m. & we went together to Smithsonian walking part of the way. Our Committee meeting lasted until 4 P.M. when we adjourned. Merriman Palmer & I went to Columbia Theatre at 4.30 to hear Buffalo Jones.

He is a cheap sensationalist but his lectures are wonderful, especially the biograph ones of Elk, Buffalo, Condors etc.

Wea.

SATURDAY 20

Ther.

Clear most of day. Very mild.

Our Committee on Nomenclature held its final session to-day adjourning about 3.30 P.M. until next November when we are to meet just after the Union meeting is over.

Douglas returned to Kent Hall by 4 P.M. train. Allen is a very amiable man. I shall probably stay here a few days more. Biological Soc. meeting this evening.

Merriman

Washington.

Wea.

SUN. JAN. 21, 1906

Ther.

Partly cloudy. Very warm. Wind lighter from the S.

Henry called at 8.30. We went to the Outlets to look up apartments & there to the Zoo where we met Merriman by appointment & Buller, later by accident. Saw some of the best things. With Henry & I drove to Brookland to dine (at 1.30) with Robert & Mrs. Ridgway. Spent a delightful afternoon with them. Saw fully 10,000 Crows flying to roost in Soldiers Home woods. Ridgway had found Hyles foraging this evening.

Wea.

MONDAY 22

Ther.

Cloudy & oppressively warm

75°

Having a sore throat I spent the day in the house. Henry & Merriman called in the evening. Miss Brooks took a long ride in an open car. I saw some of our neighbors sitting on their door steps the warm in their coats. Passies & Play Subalata can send to a in bloom in garden here.

Long William, very fine
are of previous day

Washington.

Wea. TUES. JAN. 23, 1906 Ther.

70°

Cloudy with occasional light showers & heavy rain after dark

Spent the day in Agric. Dept. Smithsonian & Nat. Museum calling on my friends. Pratt & Orwood showed me a lot of the Nat. Survey birds. I had a long talk with Ridgway. He is planning to buy a farm in Illinois. McMillan & Newton called on me this evening. They seemed better but still nervous.

Wea. WEDNESDAY 24 Ther.

47° max.

Clear and much cooler with fine bracing N.W. wind.

Walked to the Museum with McMillan & Prof. Woodruff (of the Geog. Surv.) after breakfast. Visited the old Cemetery, Japs & had my hair cut. Spent most of day at Dept. Biology & Smithsonian calling on my friends. Called at Mrs. Holman's & saw Miss Stone & Miss Susan. Many of the birds at the Museum & Pratt came from

Washington-Boston-Cambridge

Wea. THUR. JAN. 25, 1906 Ther.

Clear and cool but not cold.

Took Colonial Express at 7.40 a.m. and went directly through to Boston reaching there about 8.20 P.M. Called on C. at Abbeysford and stayed until 10 when I went to the Athletic Club for the night. I saw no snow whatever & almost no ice to-day. The grass was green & the woods dry as far as Southern Courtland St. & Dept. that the therm. was 70° here last Friday.

Wea. FRIDAY 26 Ther.

Clear, cool, calm - like a fine day in mid-November.

After breakfast at Athletic Club I came on to Cambridge & worked all day on frogs Camb. Birds. C. called at 7 P.M. & wanted her to her Bee which met at Mrs. C. Boring has gone home to her mother & Miss Allyn is with C. now. I am to be down in our house for the present. There is absolutely no snow & the grass is faintly green in spots.

Cambridge - Boston.

Wea. SAT. JAN. 27, 1906 Ther.

Clear & very mild.

Spent day in Museum working on proof Camb. Birds. James came down with a load of fagots. He saw a Deer in Lawrence's field on Tuesday. It is reported that a Wild Cat is about the farm. Gordon Lawrence & Benson have been in.

Went in town at 6 P.M. dined with C. & Miss Allyn at Abbotsford, spent evening at Delany's office with him. Kimball & De Merrett working on *Onalaska*.

Wea. SUNDAY 28 Ther.

Cloudy & mild. Rain last night.

Wrote letters in Museum 9-12. Spent afternoon & evening in town luncheon & dining with C. & Miss Allyn. Called on the Warners with C. Frank & Margaret. Mr. Frank took me to concert at Algonquin Club. Good music. Then I recall & I met C. at the Cummings house. Saw both of them & also Alvin & Mrs. Dolles who were calling Yonni. Saw her on about 9.30 P.M.

Slipped on Dimick's stairway & sprained my ankle!

Cambridge.

Wea. MON. JAN. 29, 1906 Ther. 14° min. 28° max.

Brilliantly clear with light W. wind. Much cooler.

Spent day in Museum working on proofs Camb. Birds. I am adding fresh matter here & there to fill up short pages.

Miss Allyn lunched with me. C. came out later to her reading class. Purdie appeared at 6 P.M. to spend the evening two weeks with me. We talked all the evening.

Wea. TUESDAY 30 Ther. 20° min. 43° max.

Brilliantly clear with light W. wind 43° max.

Spent day in Museum working on page proofs of Cambridge Birds, writing a good deal of new matter to fill spaces. No callers. Purdie with me at meals. He walked to Mr. Anderson in A.M. & to Fish Pond in P.M. Saw birds visit the Garden now. I saw two or three Chickadees & a Downy then today & a Flicker yesterday.

Cambridge - Boston

Wea. WED. JAN. 31, 1906 Ther. 31° min.
 Partly cloudy. Early morn foggy 52° Max.
 Wind light from the S.W.

To Boston at 11.30. Attended meeting Trustees Pub. Reservations. Fifteen members present. Shaler advocated the taking of all the water of Niagara for commercial purposes. I answered him briefly. Pres. Eliot in the Chair. Afterwards called at our office & on Kimball. Miss Stone called about a dozen of us from 4 to 5 P.M. with London & Copin - C., Miss Allyn, Mrs. Webster, the Rogers & Purdie. Purdie came out with us. We had dinner later.

Wea. THUR. FEB. 1 Ther. 30 min
 Cloudless with light N. wind 42 Max.

Spent entire day in Museum working on proof sheets of Cambridge Birds. Purdie went to Miss Comp. Took in A.M. and to Boston in P.M. Miss Allyn returned to Cambridge to-day and Irving Fisher is to take her place with C. at the Abbottford to-night. I had no calls to-day. Heard Crows cawing early this morning. Several Chickadees in Garden.

Cambridge - Boston.

Wea. FRI. FEB. 2, 1906 Ther. 20 - 7 a.m.
 Clear & cold with high N.W. 20 - noon
 wind. 10 - 9 P.M.

Spent day in Museum correcting gallery proof Comb. Birds. Fred B. Mc. Keehan called at 5 P.M. to tell me his story of the Wade collection of Wilsoniana & Auduboniana. He has secured the collection by irregular & illegal methods as he admits. In the morning at 8 P.M. attended meeting Botanical Club. I was called on to speak about the Park Purdie & I got back at 11.

Wea. SATURDAY 3 Ther. 0 - Min
 Clear & very cold with strong N.W. wind. 14° Max.

Spent day in Museum reading gallery proofs Comb. Birds. Mr. Willard of Millerville, Mass. called at 2 P.M. & stayed until 5. He seems well informed about N.E. birds & is a pleasant fellow. A Downy Woodpecker on Garden. Crows cawing again this morning.

Cambridge - Boston.

Wea. THUR. FEB. 8, 1906 Ther. 7°

Sunny but hazy, with almost no wind, a raw, chill air.

Spent day in Museum collecting proof of Camb. Birds. We are dealing with Swallows & Vireos now. Peppie still with me. He went to Scripps Museum in A.M. & to Boston in P.M.

A Flicker & a flock of 6 Chickadees visited the garden.

Wea. FRIDAY 9 Ther.

Heavy N.E. storm beginning with snow, changing to rain, leaving 3-4 inches of icy snow on ground at nightfall. 37° max

To Boston at 9.30 A.M. Attended three hearings at State House before Com. on Fish & Game & spoke on all of them. They related to Phalarope, to non-incidental loss & to shooting from motor boats. Dined at Parlier's with Demme. To Abbeysford at 2. Dined with C. at 6 & went to Colwell to see Willard at 8. C. & I drove over to Cambridge on a conveyance at 11 P.M. She came home to May

Cambridge.

Wea. SAT. FEB. 10, 1906 Ther. 22°
34°

Clear with light W. wind.

Spent day in Museum working on proofs Camb. Birds. Betty called in P.M. C. & I went to Braith Hall at 8 P.M. to see a remarkably bright & well acted play given by Dramatic Club. Got home about 11. There is fairly good sleighing now. A Flicker & 5 Chickadees in garden.

Wea. SUNDAY 11 Ther. 12° min

Brilliantly clear with fresh N.W. wind. 26°

Spent A.M. in Museum writing letters. Sam Hanson & George F. ... dinner with C. & her at 1.30. Hanson stayed until 5.

The birds are now blossoming well in the house; the lawn, Antelope, Hyacinths, Jonquills etc. in profusion.

Cambridge.

Wea. MON. FEB. 12, 1906 Ther. 14° min.

Forenoon sunny, afternoon cloudy, 37°

Spent day in Museum working on page proofs, Camb. Birds.

C. had her reading class in P.M. Botschelder called at 5 P.M.

As I was dressing this morning I saw a Flicker leave the jungle & fly off westward. Only a few seconds later three birds arrived nearly together from the eastward. I think there were four in all, an unusual number to be here in winter.

Wea. TUESDAY 13 Ther. 32°

Cloudy with frequent heavy showers of fine rain.

Spent day in Museum working hard on proofs of Cambridge Birds. No calls after Botschelder who appeared in late P.M. & stayed only a few moments.

I spent the evening at Joe Russell's where I had a good long talk with him & a dinner with his wife & some of his children.

Cambridge.

Wea. WED. FEB. 14, 1906 Ther.

Cloudy with chill E. wind. 42° Showers of hail and rain at night-fall. The streets slushy & the snow fast disappearing again.

Spent day in Museum working ceaselessly on proof sheets of C.B.

Walked to head of Sparks Street just after breakfast & saw there a ♂ Sparrow Hawk gliding through Dr. Wyman's grounds. A Flicker, a Crow & 5 Chicks also visited the Gardens.

Wea. THURSDAY 15 Ther. 18°

Cloudy & colder. The rain & hail changed to snow during last night, about two inches falling before morning. There were big showers of snow this forenoon.

Spent most of day in Museum working on proofs of Camb. Birds. At 12.45 C. & I walked down to Washington Court meeting E. R. S. on the way. We then lunched with Miss Alice Allen in her pretty apartment. She gave us stewed mushrooms & other good things.

Cambridge.

Wea. FRI. FEB. 16, 1906 Ther.

Brilliantly clear with light N.W. wind. 27°

C. & I walked to Mt. Auburn after breakfast - for the first time this winter. The air was incredibly pure and sweet, like that at Bethel in winter. The ground was covered to a depth of several inches with fresh, sparkling snow & the blighting was perfect.

I worked all day on my usual task, the frog skins.

Wea. SATURDAY 17 Ther.

Forenoon sunny but hazy; after noon cloudy. Warmer. 18° 34°

Spent day in Museum working on proof sheets of Cambridge Birds. No calls. Saw a H. Wren in the Garden. Marge & Walter Howe dined with C. & me at 6.45.

Cambridge.

Wea. SUN. FEB. 18, 1906 Ther.

Cloudy, calm, mild. 39° max

Did not get up this morning until 10.30. Spent remainder of forenoon in Museum writing letters. Will & Alice Stone, Lois Howe and Frank Manning dined with C. & me at 1.30. They spent most of the afternoon with us. Harry & May Cunningham called. Roland Hayward has water on the knee.

Wea. MONDAY 19 Ther.

Forenoon clear; after noon cloudy. All calm & very mild day.

Spent day in Museum working on proof sheets. I had a lot of new material to compare to add to the type of *Merulotilla varia*. I did not succeed in finishing it. C., E. R. S. & I went to Brattle Hall at 8 P.M. to see a series of short plays illustrating scenes in Cambridge in early colonial days. They were very good & interesting.

Walked to Mt. Auburn with C. at 9 a.m. Saw 37 Cherry Blossoms in flower of 1897.

Cambridge. (Flicker Shouts)

Wea. TUES. FEB. 20, 1906 Ther.
24°
47°
Clear, calm very warm.

Spent day in Museum working on the new type for Ministella article.

C. lunched at the Chapmans & Loring Teller with me. Purdie dined with C. & me & spent the evening.

Walter heard a Flicker shout repeatedly in the garden about 8 A.M. I heard him give one loud but rather short shout about 10 A.M. This is the first spring voice that I have heard this year.

Wea. WEDNESDAY 21 Ther.
37°
58°
Cloudy with S.W. wind and heavy rain at evening.

Spent day in Museum working on proof sheets. To Harvard Square in late P.M. to have my hair cut.

We gave a rather sweet dinner at 7.30 to Mr. & Mrs. Almy, Mr. & Mrs. Ratchford & Mr. & Mrs. Webster. They departed at 10.30

Flicker gave one short shout early this morning. Karl saw a Green Owl in the garden at day break.

Cambridge. (Snow drops)

Wea. THUR. FEB. 22, 1906 Ther.
40° min
47° max

Brilliantly clear with light W. wind. Snow drops nearly in bloom in front of Museum - about a dozen fat buds not actually open but ready to do so. Snow wholly gone again. Grass green in places.

Spent day in Museum, writing letters & working a little on proof.

Went with C. to a reception at Dr. Robinson's at 6 P.M. Saw Judge Chamberly, Rand, Matthews & many others I know.

Two Chickadees answering one another with the phoebe call in the garden

Wea. FRIDAY 23 Ther.
26° min.
50° max
Clear, calm, mild.

Spent day in Museum working on galley proof. No callers.

C. had a small lunch party which I attended. It included Loring Simons, her friend Miss Barr, Mrs. Edward Wymann and Sally Dearborn. The sewing Bee met at Mrs. Eliot's. C. went. They all wore brass crowns & had a gay time. Sam Henderson dined with me at 7 & spent the evening. He brought as a gift some bird postcards by Scott & Horsfall.

Cambridge.

Wea.

SAT. FEB. 24, 1906

Ther.

Another clear, calm, mild, Spring-like day. Many snow drops in full bloom & the grass greening fast on sunny slopes. A Flicker shouted long and loud as I was dressing this morning. I half expected to hear Robins singing at evening but watched and listened for them vainly of course.

My day was spent in the usual way, working on gully prof.

Water was in Boston & no one called on way. A good letter from Dr. Gehring from Cairo, Egypt.

Wea.

SUNDAY 25

Ther.

Clear and mild with a child E. wind & gathering clouds in late P.M. portending a storm to-morrow.

C. & I walked to Mr. Aborn with Larry just after breakfast. I kept expecting to hear Bluebirds or to see them. Bluebirds, it was so very Spring like but we noted nothing save a crow or two. Saw 2 Downies & 5 or 6 Chickadees on the Golden.

Spent A.M. working on prof. Harry & Mary Cunningham home, Walter & Maudie Deacon & Dr. Blatter church with C. & W. at 1.30.

Cambridge.

Wea.

MON. FEB. 26, 1906

Ther.

Sunny but hazy and also somewhat cloudy in P.M. Light N. wind. Larry & I escorted C. to her dressmakers near Mass. Avenue just after breakfast. Larry waited there for his minutes but I walked back alone through Fenway. There where I saw a Sparrow Hawk & a Flicker perched near together on the big elm where the Seventh Ours breed. Heard two Flickers "shouting" long & loud every minute or so.

Walked all day in Harvard. Saw crocuses (yellow, white & purple) in bloom on Channing Street.

Wea.

TUESDAY 27

Ther.

Sunny with clouds gathering in late afternoon.

Walked nearly all day on gully prof of Camb. Birds. C. went to her dressmakers again just after lunch and Larry & I escorted her to and half way through Channing Street Larry returning with me.

"McDine" dinner at Spelman's this evening. Present Jeffers, Batchelder, Deacon, Rand, besides Spelman & me. We had the usual good time & broke up at 10.30.

Cambridge - Boston.

Wea. WED. FEB. 28, 1906 Ther. 8°

Clear, & bitterly cold with raging N.W. wind. Worst day of winter thus far.

To Boston at 9 a.m. Went direct to State House & met Dr. J. S. Palmer, Mr. Daniels, Mr. Kimball & Mr. Poland in office of Fish & Game Commissioners. We all attended hearing before Fish & Game Comm. of Legislature. Room well filled. Matter was over in few. Palmer associated them necessarily. He, Daniels & I dined at Porters. I then called at our office. Another dinner at Long at 6.30. Eighteen present. I pointed & introduced the Huttons. Palmer came out with us for the night.

Wea. THUR. MARCH 1 Ther. 8°

Clear with strong N.W. wind. 28°
Very cold but less bitter than yesterday.

Spent most of forenoon talking with Palmer. Gave him my diploma for the Forest & Stream. He departed at 11.30. Worked on my notes rest of day. Mrs. Joel Glass called in P.M. Christian Peterson also came from Concord to try to borrow some money which I refused.

Cambridge.

Wea. FRI. MARCH 2, 1906 Ther. 16°

Brilliantly clear with fresh N.W. wind. 34°

Spent day in Museum working on gallery proofs. Walked over to North Avenue just after breakfast with C, who was making another visit to her dissertation. It took Harry & I some. Gilbert went to Concord for the day. He brought back a dead, Bluebird. Four Flickers together in one Porters' apple.

Wea. SATURDAY 3 Ther. 25°

Cloudy with N.E. wind and heavy showers of fine rain beginning about 10 a.m. and lasting through the day & the following night.

Took a short walk with Daisy after breakfast. C was unable to accompany me because of the old pain, slight but undoubtedly somewhat discouraging for an hour hoped that it would not return. She was able to receive Mrs. Horace Sundeles who hunched with us. I spent the day working on gallery proof of woodcuts.

Cambridge

Wea. SUN. MARCH 4, 1906 Ther. 40°
46°
A. M. cloudy with showers.
P. M. clear.

To early service at St. Johns with C. Afterwards escorted her to the Hoagys & returned alone. Spent A. M. writing letters in Museum. Those of Mary Gremont, Frank Manning & E. R. S. dined with C. & me at 1-30. Stayed most of afternoon.

Wea. MONDAY 5 Ther. 32°
37°
Clear with fresh W. wind.

Walked to Elmwood with C. after breakfast. She took car there for Boston & I returned with Daisy. Spent day in Museum working on proof. Bailey called at P. M. Club meeting this evening - Bent considered making of his journal on Atlantic trip - Twenty members present.

Cambridge.

Wea. TUES. MARCH 6, 1906 Ther. 19°
36°
Clear with light W. wind.

Daisy & I escorted C. through Lowell Street to the cars just after breakfast. I spent the day, as usual, on my proofs. About 6.20 P. M. Karl called me out into the Garden to see a pair of Screech Owls. I got within a few yards of both. One in a cherry tree was a red bird; the other, perched in a fir, was in gray plumage. They have been seen separately before & C. heard one whistling about 4 o'clock this morning.

Wea. WEDNESDAY 7 Ther. 26°

Clear with light W. wind in early morning. Afternoon cloudy & evening clearing.

Spent day in Museum working on proofs Cambridge Birds (4) Crown Blackbirds appeared on the tops of our windows about 11 A. M. One left the other & alighted in the catalogue by the window. C. & I went to Boston at 6.30 & dined at the Jeffersons with Roland & Geo. V. Russell.

Cambridge - Boston.

Wea. THUR. MARCH 8, 1906 Ther.

Sunny but hazy, calm, rather 46 max mild.

Took a walk with Larry after breakfast. Saw a Grackle on Highland Street and heard a Flicker shouting in the direction of Dr. Wyman's place. No Robins seen here yet. Although they appeared numerously in Concord & Milton last week.

Spent day in Museum working on proof of Cambridge Birds.

Wea. FRIDAY 9 Ther.

32 min
36 max

Heavy N.E. storm chiefly of blushing snow which at no time exceeded two or three inches in depth as it melted almost as fast as it came.

To Boston at 9.30 a.m. met Dimmock, Kendall, Poland, King & Jaffins at State House. One "mallet bill" was to have been heard but another matter relating to oysters & clams concerned all the time. Lunched with Poland & got home at 2.30. At 4 P.M. the members of C's Bee to the number of 14 collected in my museum, & were plus transported by Galt at Poland's demand & then on my way with me.

Cambridge - Boston.

Wea. SAT. MARCH 10, 1906 Ther.

34°
45°

Clear with violent W. wind. Snow melted rapidly.

Spent day in Museum working on galling proof. It has now revealed the Chickadee and only nine species remain in M.S. No collars. A Grackle & Chickadee visited the garden. I hear crows every morning. Crocuses in bloom front of house for some at Hanson yet. C. & I dined with Will & Alice Gray at their studio at 6.30. Gloried for home at 9 P.M.

Wea. SUNDAY 11 Ther.

28°

Brilliantly clear; high N.W. wind. 42° More than 1/2 the ground bare.

To early service at St. Johns with C. at 8.30. Afterwards called at the Thayers' where I saw Mrs. Thayer, Loring & their families. Walking back through Berkeley St. saw 3 Grackles in rear of Longfellow place.

Wrote letters & walked a little on proof. The Misses Bishop, the Misses Chapman & Miss Allyn dined with C. & me at 6.30.

Cambridge - Boston

Wea. MON. MARCH 12, 1906 Ther.

A wintry-looking morning with
about an inch of fresh damp snow covering
the ground & trees. Day sunny but raw.

With Dimick, Poland & Kimball I
met a delegation of members at 216
Washington Street at 10 a.m. Among them
were Mead, Hanson & Bartlett. They
proposed various things, first meeting in
the way of a compromise that we could
accept. We talked until 12.30 & then
separated for lunch. I went to the
State House at 3 P.M. Found Jaffee &
Purdie there. Just before the hearing
opened the heartiness made us an
offer which we quickly accepted.
I got home at 5.30.

Wea. TUESDAY 13 Ther.

Sunny but exceedingly cold
or at least, raw & chilly.

Spent day in Museum. Finished
my party photo by noon and
spent the afternoon on some
notes for the book regarding
a Hopewell & Jolley Burial
taken in Newfoundland.

No birds seen or heard &
no crows

Cambridge.

Wea. WED. MARCH 14, 1906 Ther.

Clear and cold with light
W. wind.

Spent forenoon working on
galley proof of *Worthens, Mass. etc.*
At 3 P.M. C. & I went to
Washington Court & called on Miss Allen
but did not see her. We next went to
Christ Church to attend the wedding
of Joe Russell's son Theodore & Miss Rose
Hess. We called on Tom Robinson who
was out on the *Worthens* when
we saw. Read *Worthens* then *Worthens*
in the evening.

Wea. THURSDAY 15 Ther.

Heavy N.E. snow storm beginning
about 9 a.m. Six inches of fine dry
snow had fallen before dark.
The storm is therefore the biggest
one of the winter season.

Spent day in Museum working
on galley proofs. C. went to
Andover getting back at 4 P.M.
A Shrike spent most of the
forenoon in the garden, singing
fervidly. He had a harsh voice.
(6) Two blackbirds alighted in jungle
about noon

Cambridge

Wea.

FRI. MARCH 16, 1906

Ther.

23°

Clear & warmer. About 8 in. of snow, 26°
with 2 ft. in some of the drifts.

Spent day in Museum
working on galley proofs of
Thrushes. C. went to Groton to
see Bessie J. Loring Fickett &
Mrs. Cobb lunched with me.
Dined with C. at 7 P. M.
and spent the evening at
Harry Spelman's.

Wea.

SATURDAY 17

Ther.

20

Clear, calm, cooler

34

Spent day in Museum working
on galley proofs. The very last
ones of my Cambridge book,
dealing with the Robin and
Blindbird, came from the
printer just after lunch.

Willow & Miller's, Mass., called
in the afternoon.

Heard a Flicker, Downy &
Grackles calling in the garden.
Sent Barry to Lawrence a-day.

Cambridge.

Wea.

SUN. MARCH 18, 1906

Ther.

14°

30°

Clear, calm, cold.
The snow still lies to a depth of
6 or 8 inches in our gardens & on our
lawns & the streets afford good slipping.

Wrote letters in A. M., Purdie
& Sam Herobers dined with me at
1.30 & spent the afternoon. C was
confined to his bed by a cold & a
bad headache.

Wea.

MONDAY 19

Ther.

12°

Beautifully clear morning followed 37°
by cloudiness and a steady snow fall
in the late afternoon & evening.

Worked on page proofs all day,
adding fresh matter here & there.
Two Grackles & two Blue Jays in
the garden. Also, very soon I heard
a Robin, then, Flicker & Downy then &
5 or 6 Chickadees at one time.

Walter Club met this evening. Present only
Allen, W. Deane, Hardy, Townsend, Boston
& W. R.

Cambridge

Wea. SAT. MARCH 24, 1906 Ther.

Brilliantly clear with light N.W. wind. 9°
27°

Put in my last whole day's work on Cambridge Birds adding a lot of matter to the Robin & Hermit Thrush to fill up short pages. After this I shall have only final page proof to correct & that will not take long. C. spent the day in bed but her cold is no worse. Henshaw called at 5.30 & spent an hour discussing Mr. Kecknie's qualified offer to give the Wilson Crosses to our museum.

Wea. SUNDAY 25 Ther.

Clear and calm. 9°
37°

Spent forenoon in Museum writing letters. Walter with me for an hour discussing page changes etc. Will & Alice Stone & Geo. V. Bennett dined with me at 1.30 & stayed until 4.30. C. decidedly better & on her couch to-day.

The snow has melted somewhat & the slighing is gone but the ground is still deep by covered lawn in the streets.

Cambridge - Boston

Wea. MON. MARCH 26, 1906 Ther.

Cloudy with rain at evening. Wind S.W. Much warmer. 18°

Go Boston at 10.30. Went to safety vaults with MacLinton to get out a mortgage paper. Called at 216 Washington St. but Dimick was away & Humboldt went. To Dr. Rand's at 2 P.M. He filed several board certificates. Called at Public Library & at Gilbert's Club. Got home at 6 P.M.

Wea. TUESDAY 27 Ther. 48° (at 7.30 a.m.)

Cloudy with frequent showers of fine rain. Wind S.W. Snow going fast & streets afloat.

Spent A.M. in Museum writing letters. To Mus. Comp. Zool. at 2 P.M. Spent two hours in Faxon's room with Faxon & Henshaw discussing Thayer's proposition about the Wake collection.

Faxon feels bitterly about Mr. Kecknie & I fear he will make no concessions but he has agreed to think the matter over & to write John Thayer. Puddie dined with me at 7 P.M. & spent the evening.

Cambridge - Boston

Wea. WED. MARCH 28, 1906 Ther. 38°

Forenoon cloudy; afternoon clear, calm, warm, springlike.

Spent a.m. writing letters. In P.m. worked on a note for the coll relating to Cassin's Seal records. Also considered suggestions made by Batchelder (who called at 4 P.m.) on margins of page proofs.

Ⓢ. Crow, Blackbirds in garden. A Shrike singing in Hubbard Park & Owl in We. Dine dinner at Jca. Goodale's at 7 P.m. Present: Batchelder, Rand, Spelmann, W. Deane, Townsend, Jeffers, Goodale, W. B.

Wea. THURSDAY 29 Ther. 28°

Forenoon clear; afternoon cloudy. Snow nearly all gone.

C. & I had planned to go to Washington to-day but she is not yet well enough to travel. She is up & dressed again, however.

I spent the day in my museum working on various odd tasks & not accomplishing much.

Heard Crows cawing in early morning but saw no birds, save Horn Sparrows. When are the Robins

Cambridge.

Wea. FRI. MARCH 30, 1906 Ther. 38°

Cloudy with fine steady rain through the afternoon and evening.

Spent day in Museum working on proof sheets. Have just come across memoranda of two omitted records; neither is good but better than to gain. One relates to Piers Phillips than other to Seiurus motacilla.

C. came down stairs to dine with me in the den in evening. Forster called in P.m. Heard Grackles in garden. No Robins yet! Spent the evening with neighbor Almy.

Wea. SATURDAY 31 Ther. 36°

Raining & hailing up to 10 a.m. Afternoon clear.

Spent day in Museum identifying birds & this received from Bent, Bishop, Taverner & Mrs. Comp. Zoology. No coller. C. came down stairs to see all three nests to-day but she still has a bad cough. Birds very scarce. Saw only a Downy in the garden. No Robins yet. Crows & Squirrels in flower.

Saw a large Bat flying up "kicker" River from Fox Sparrow St. at 6:25 P.M.

Cambridge.

Wea. SUN. APRIL 1, 1906 Ther.

27°

Brilliantly clear with high N.W. winds. 40°

Walked to Elmwood just after breakfast. Spent forenoon reading second page proof in Museum. Sam Henshaw dined with me at 1.30 P.M. Bessy & Ruth Jefferson came out at 2.30 to spend an hour with C. who did not come down stairs. to-day saw literally no birds of any kind to-day.

Wea. MONDAY 2 Ther.

26°

Clear with intensely raw N.E. wind. 41°

Walked through Hubbard Park after breakfast. Spent day in Museum. Worked on page proofs in A.M. and on the identification of birds from Beyond Hill at Mrs. Comp. Took in P.M. No calls. James drove down from Concord & took back a lot of furniture for the farm house.

A flock of 9 or 10 Snow Buntings in Garden in P.M.

Natural Club meeting - House on Richens

Gray Scaup Owl in Catalapa at 6.30 P.M.

Cambridge.

Wea. TUES. APRIL 3, 1906 Ther.

26°

Brilliantly clear with light easterly winds. Snow entirely gone now. 44°

Spent day in Museum working a little on page proof and adding some fresh matter to be inserted in appendix.

Batthelder called at 5 P.M. to suggest changes in Robin roost matter, which I adopted at once. Gilbert spent day on Concord. He heard a Pine Warbler there.

We had only Grackles in Garden. Heard 2 Field Sps. singing this morning while taking walk. Charles Bayne called this morning to tell me about his drawing trip to Chatham.

A Robin seen on Appleton St. by Batthelder.

Wea. WEDNESDAY 4 Ther.

30°

Forenoon sunny; afternoon cloudy. 63° Warm S.W. winds

Took short walk before breakfast. Spent day in Museum, reading page proof, writing letters, & packing things to go to Concord. C. walked with me in garden, first time she has been out of doors for two weeks. She has been out of doors for two weeks.

E. H. Lord dined with us at 1 P.M. About 7 A.M. while still in bed I heard singing a Bluebird, a Fox Sparrow & a Thrasher. A crow coming in. 4 Fox Sparrows & 3 Song Sparrows spent day in Garden. Several Grackles & a pair of Downy Woodpeckers there. A Robin (the first) calling in the lindens at 5 P.M. & he first sang at 6 P.M.

Cambridge - Concord.

Wea. THUR. APRIL 5, 1906 Ther.

40°
56°

A. M. sunny; P. M. cloudy.

Bright N. W. wind.

Spent most of day in Museum
Corrected 2nd page, pages of the closing
12 pages Cambridge Birds & wrote
some fresh matter for Appendix.

Dr. Dixon called to examine my
knee which has been painful of late.
He says the cords are badly strained.

C. closed the house & started for Washington
with Iola by 7.45 train. I went to Concord
alone and spent night at the Colonial.

Wea. FRIDAY 6 Ther.

Cloudy with cool N. W. wind. Heavy
rain last night. A Robin singing
this morning.

Spent forenoon at Colonial House
I was the first & only guest for
Mr. Abram & his wife came only yesterday
noon. They made me very comfortable,
however. Edward Emerson called
on me at 10 A. M. & stayed about
an hour. James came at 2 P. M.
& drove me to the farm. I wrote
letters in P. M. My knee is very lame
& painful to-night.

H. W. Hylas last night. They were
in full cry to-night. Fide School Emerson

Concord

Wea. SAT. APRIL 7, 1906 Ther.
26° min

Brilliantly clear with fresh,
cool N. W. wind.

Spent most of day in parlor
writing letters and working on a
short article for the Auk.

Walked to the Bungalow to see
the new cars & the news, after breakfast.
Returning I went to the foot of the
lawn. In P. M. walked through the
orchard. Wood frogs in full chorus at
4 P. M. Robins singing in early morning
& at evening. One Fox Sparrow, several
Juncos & Song Sparrows singing.

A Barn Owl hooting very near
the house at 11 P. M.

Wea. SUNDAY 8 Ther.

Clear with strong, cold N. W. to
N. E. wind.

Walked to Ritchie place after breakfast
and again at 4 P. M. My knee much better
to-day. Paddie arrived in late P. M.
to spend a few days with me.

About 15 Juncos and at least 2 Fox Sparrows
feeding behind the house. Song Sparrows
singing everywhere. A Phoebe (the first noted)
in full song at home. Bluebirds seen
today. I heard only one to-day.
Wood frogs croaking again in P. M.

Concord.

Wea. MON. APRIL 9, 1906 Ther. 28° min

Cloudy with strong & intensely chilly N. E. wind which brought snow at nightfall.

Purdie & I drove "Betty" nearly to Carlisle after breakfast. The country was dreary enough but we saw lots of birds chiefly Robins, Bluebirds & Song Sparrows. Saw 10 Fox Sparrows, a few Juncos, 6 Crows, and a Cowbird. Walked to Rutland place on our return & again sat writing. Read & wrote letters in the afternoon. A few yellow Crows in bloom.

Wea. TUESDAY 10 Ther. 30°

Professor Shaler died to-day

Cloudy with N. E. to N. W. winds. Rained heavily in the night taking off most of snow by morning; misty rain in A. M., P. M. fair. Walked to Rutland place with Purdie after breakfast. Heard 2 Doves cooing & 2 vesper Sparrows singing. Found fresh track of a Coon in snow in my wood road & up lane towards barn. Birds singing well. To Rutland place again in P. M. Robins singing. Saw some small big flock of Geese over Bell's this. Wrote a lot of letters.

Concord.

Wea. WED. APRIL 11, 1906 Ther.

Clear & warmer with light W. wind.

Spent most of day in house. My lame knee was much worse & I could not walk at all without pain.

Parlee & another Carpenter came from Chelmsford this morning & began work here.

Yesterday came news of Miss Elizabeth Bishop's death at 61 Sparks St. on the 8th. To-day as we were at dinner George Hayward telephoned that his brother Roland died last night. Purdie went to Boston by the 3.17 train to be Harry's to offer help in way that. He got back at 8.40 P. M.

Wea. THURSDAY 12 Ther.

Cloudy with strong, cold N. W. wind.

Spent most of day in house. Knee a little better but still weak & painful. Purdie took several walks & went to cabin. Carpenters working on. Pigeon house & pen. 3 Fox Sparrows, a Junco & a Robin feeding on south front of house. A Pine Warbler singing in elm. Wood Pewee croaking all day. Hylas in full cry all evening. Telegram from C. about Roland's death.

Concord.

Wea. FRI. APRIL 13, 1906 Ther.

Cloudless, calm, much warmer.

First Tree Swallows (3), flock of 30 to 40
Geese passed over house at 4 P. M.Spent most of day sitting in a
chair in sun at E. end of shed
watching & directing work on pigeon house
Purdie collected a lot of ground pine
to take to Readville this P. M. to put
on Roland's coffin. He will return to us
7 or 8 sparrows singing gloriously most of day.
12 of them feeding on bank front of house.

Wea. SATURDAY 14 Ther.

Cloudy with strong, raw
S. W. wind. A gloomy chilly day.
36°
60°Spent most of day in honor.
Mr. & Mrs. J. C. Melvin & Mr. Baller
arrived in an automobile at 11 a. m.
and stayed until 4 P. M.I walked down the lane to
the cedars at 5 P. M. but stopped
for it later, as my knee became very
painful again. Purdie returned
at 5.45. Roland's funeral at 2 P. M.
to-day.

Concord.

Wea. SUN. APRIL 15, 1906 Ther.

Heavy rain in A. M. P. M. 5-8° max
cloudy clearing at sunset.Knee better to-day. Walked to foot
of lane after breakfast and to
Bungolow at sunset without buying
on any serious pain. Heard a
Ruby-crowned Kinglet singing near house
& a Field Sparrow across road, both
"circled". Edward Emerson & his son
William called in forenoon & stayed
about an hour.

Wea. MONDAY 16 Ther.

Clear with light N. W. wind. 42°
63°

Chippies noted for first time

Spent A. M. superintending work on
the pigeon house which drops heavily.
Took several short walks about the
place. My knee much better.Purdie & I had a delightful dinner
with Betty in P. M. We started at 2.30,
made a call at the Emersons (where
we saw Mrs. E. & Florence's body) and then
drove to Concord & back by the road
to the farm.

Concord

Wea. TUES. APRIL 17, 1906 Ther.

34°

66°

Clear & warm with light, varying winds, chiefly N. & N. E.

Spent day out of doors but near house, pulling leaves, pruning fruit trees, & superintending work on pigeon house which needs the end.

There seemed to be only a few birds about & no new ones were noted. Robins are strangely scarce. Purdie went to Ball's Hill in A.M. & to Boston for the night in P.M. Crocuses, squills & hepaticas in fullest bloom.

Wea. WEDNESDAY 18 Ther.

38°

68°

Clear with light N.W. to N.E. winds.

First Yellow Palm Warbler noted by Gilbert.

Spent most of day in an arm chair in the sun in front of the shed watching the carpenters working on the pigeon house which was practically finished by night. I also took down notes on the songs, calls etc. of the birds that came within my ken. My knee was so weak & painful that I could walk but little. Purdie returned from Boston at 5:30 P.M.

San Francisco Cal. clear & hot with a terrible earthquake.

Concord

Wea. THUR. APRIL 19, 1906 Ther.

36°

72°

Clear. A.M. calm, P.M. with chill E. wind. Very warm at noon.

Purdie, Gilbert & I spent the day at Ball's Hill dining at the cabin. James drove me down & back. I paddled Purdie about over the flooded meadows in the forenoon. After dinner we all worked at the flower beds clearing out dead leaves & mending the fence. Hypoxis, Claytonia & blood root in bloom. Many just in on roots. Very few birds. A Redby-crow singing at cabin.

Wea. FRIDAY 20 Ther.

43°

68°

A.M. cloudy; P.M. clear. Wind S.W.

Myrtle Warbler (1 ♂) & Solitary Vireo (1 ♂) noted for first time; both in oak grove near the barn.

Spent most of day in the rustic summer house which I put up last summer & which the carpenters are now lining with bark etc. Saw a ♂ Marsh Hawk crossing our field. Purdie went to Boston in P.M. Gilbert tied Betty to the post by the wood shed on his return & they at once started back & brother in bird.

First birds breeding this morning; a few flying this & flowers open to-day

Concord.

Wea. SAT. APRIL 21, 1906 Ther. 42°

Clear with light S. W. wind, 76°

The warmest day thus far

Black & White Creeper, 1 ♂. Barn Swallow, 1 ♂. ^{Chimney Swift}

Barn Swallow, 1 Twittering-sparrow

Spent most of day superintending work on rustic summer house. Went to woods at foot of lane after breakfast with James & Parker to cut some birches for interior finish. Heard the Creeper there, also a Dove coming near at hand for a long time a truly delightful find. Blood soon and full glow of the sun. Purdie returned by 5.30 hours.

Wea. SUNDAY 22 Ther. 52°

Clear with light N. wind 66°

Purdie & I walked to Ritchie place after breakfast. Saw 3 Yellow Palm Warblers & heard what I took to be the abnormal song of a Pine Warbler. Chaffers here in force to-day. No new birds.

We were in the orchard after dinner when Larry attacked a big Woodchuck & killed him unaided in a few minutes. I wrote letters most of day. Gilbert took Purdie to drive in P.M.

Wea. MON. APRIL 23, 1906 Ther. 38°

Cloudy with light rain 54° in A.M. Wind N.E. increasing to a heavy gale at evening.

Spent most of day in rustic summer house watching the carpenters putting in the lining of birch bark. Then Bellows Palm Warblers & a Myrtle Warbler came to the Forsythia bush in P.M. It was not a good day for birds. Purdie took two walks but saw nothing of interest. My knee is weak & painful again.

Wea. TUESDAY 24 Ther. 37°

Cloudy with raging, cold N.W. 54° wind. A gloomy, uncomfortable day.

Spent most of day in the wood shed sitting by an open fire while Parker worked on the bench in the left above Purdie and Gilbert drove to Concord in the forenoon to get a mixed lot of Pigeons which Carl brought up from Cambridge. Purdie walked to Balls Hill in P.M. seeing 10 Yellow Palm Warblers & 2 Yellow-rumps there. My knee very bad to-day. I could only just hobble

Wea. WED. APRIL 25, 1906 Ther.

36°

Partly clear with strong N. wind. 52°

Spotted Sandpiper & Kingbird arrived

Spent A.M. by fire in wood shed. Peter at work on bird boxes & other small jobs. Wrote letters in P.M. Purdie went to Boston in P.M. to be gone a couple of days. He saw a Spotted Sandpiper at D. Adams Hill this morning. He birds singing this morning.

Wea. THURSDAY 26 Ther.

30°

Forenoon cloudy & cold; 61°
afternoon sunny & warm.

Early morn. rainy. Rest of day cloudy, clearing at sunset.

Blackburnian War. ♂ in elms near barn. ^{carried}

Spent most of day in house writing letters. Walked to Ricketts place at 9 a.m. & to Percott's place & across Green Field in P.M. when on our return Purdie & I found a Partridge's nest with 8 eggs. His Vegetable Sparrows in Green Field had 3 eggs & Will Stone left us this morning & returned to Boston.

Wea.

TUESDAY 8

Ther.

44°

62°

Clear & cool with fresh N. W. wind.

Wilson's Thrush 1, semit, Birds Field ^{carried}
8 Bats in shed to-day. Pair of Nuthatches clear out hole in oak behind barn. Phoebe on nest under eaves of barn. Downy Woodpecker at work on nest in elm.

Spent most of day with the carpenters. They put up arches in wood shed. Walked to Ricketts place with Purdie at 9 a.m. to Percott's place across in P.M. Phoebe on nest in elm for the night.

Wea.

WED. MAY 9, 1906

Ther.

39°

67°

Cloudy with showers in P.M. Violent S. W. wind.

Walked to Ricketts place after breakfast and to the River, via Birch Field & Percott's place, in late P.M. Spent most of day in wood shed watching the carpenters. It was a disagreeable day out of doors & an unfavorable one for observing birds of which I saw very few. Shrub bush in full bloom also cherry trees. Apple buds showing very red & almost ready to open.

Wea.

THURSDAY 10

Ther.

40°

Clear with high cold N.W. wind. 56°

Spent most of day in wood shed with the carpenters. Walked to Ricketts place after breakfast and to Birch Field at 4 P.M. Came back through the oak & pine woods bordering the road to Benson's. Saw there a ♀ Brown-winged Hawk. It was in an oak & I saw that I got directly under it. It gave the Killdeer quite a scare. I saw where I think it to nest in a pine. Phoebe on nest yesterday in elm. Purdie returned from Boston to-night.

Wea.

FRI. MAY 11, 1906

Ther.

35°

58°

Clear with high cold N.W. wind which died away before sunset.

Spent most of day in garden, representing the work of weeding it & in the shed where the carpenters were at work. Walked to Riekin place in A.M. & to woods along Benson's road in P.M., finding there a Partridge nest with 10 eggs. The Hawk was missing.

After woods visited Berry pasture. Saw a perfectly fresh Deer track there.

First apple blossoms opened to-day. Will Stone returned from Boston this evening. We saw 51 Plymouth Rock chickens to-day.

Wea.

SATURDAY 12

Ther.

39°

69°

Partly cloudy & very heavy. Strong warm S.W. wind.

Walked to Riekin place & to Berry pasture after breakfast. A few migrants about but nothing new. Fresh deer tracks on floor of pond. Will Stone & Pardin with me. Will returned to Boston by 2.25 train.

Pardin & I walked down Howe's lane to N. end of Holden's Hill 5-6 P.M. Saw a Palm Warbler that looked like *tem. palmarum* in flock of Yellow Warblers. Saw 3 Broad wing flying towards west carry a load in its talons. Saw 1 fly towards west at 9 A.M.

Laying out
chickens
Benson saw the
Berry started a Deer in Bush Field about 5 P.M. & chased it across from field. Will Stone saw the
Benson saw the

To Barnet Run about before breakfast,
to Peepie Rock with Purdie at 9 a.m.
To Ritchie's place & Bay pasture about at 6 P.M.
Apple trees in fullest bloom & simply glorious.
Purdie went to Boston in P.M.

Wea.

FRIDAY 18

Ther.

53°

Clear, calm, hot. Scarcely a
puff of wind all day. Mosquitoes 72° (8 P.M.)
appeared in swarms in Peepie Rock woods.

Bay breasted Warbler 6 ♂♂. Farm. ^{Arrival}

Lincoln's Finch 1 silent. "

Big bird wave came last night
Woods swarming with migrants this morning.
Heard at least 20 Magnolia Warblers.
To Run before breakfast. In Peepie-Rock
woods and oak woods to S. of Brown
road 9-10 a.m. To Ritchie's place &
Bay pasture at evening. A grand singing
day! Birds sang like mad all day
... after 5 P.M.

Heard a few food (Chiffchaff) in our orchard

Arrivals

Wea.

WED. MAY 23, 1906

Ther.

Clear, calm, rather warm. 82°
 A beautiful June-like day.

Dan & I roamed about the farm looking at things until 11 A. M. when we started for Ball's Hill. Purdie joined us at the cabin and we then dined together there. Purdie departed for Boston at 3 P. M. when Dan & I took the boat & rowed up to Hollis's Hill. Returning we walked home via Holden's Hill. It was a memorable day - perfect in every way.

Wea.

THURSDAY 24

Ther.

Clear & warm with light S. W. wind.
 Light thunder shower at evening.

Dan departed at 8.30 to return to Glendale. I spent most of day with the carpenters. They finished the chicken yard and worked on the "retreat" for Ball's Hill.

I walked to Ricketts place at morning & to Perry's pasture at evening. The migration is evidently about over. Heard a Common Noddy near the house yesterday & a Great-horned Owl at day. No other water birds

Wea.

FRI. MAY 25, 1906

Ther.

Cloudy with light easterly winds. Thunder showers at eve.
 54°
 68°

Spent day with the carpenters in the shed. We put finishing touches on the Nestle's summer house by covering timbers with fresh stripped elm bark. It's joints easier than pine or birch & is very tough.

Walked to Ricketts place at morning & evening. C. got back from Pond du Lac late this afternoon & telephoned her at 6.45 from Cambridge.

Wea.

SATURDAY 26

Ther.

Clear with strong S. W. wind. 79°
 50°

Purdie & H. H. Kimball spent the day with me arriving by the 10.0 AM train & going back at 5.45. Duwick was to have come but did not.

We walked about the farm in the forenoon and went to Ball's Hill via Denis Hill in P. M. Found a Dr. Brainard & his two boys observing birds near the cabin. They are from Brookline. A Black-bellied Woodpecker was the only winged woodpecker

Wea.

SUN. MAY 27, 1906

Ther.

62°

Cloudy. Forenoon sultry with light S. W. wind. A sudden change to E. wind & a fall of 10° about 3 P. M. Heavy rain after this lasting into the night.

76°

48°

C. spent the day here. I met her at Fitchburg R. R. Station at 10 a. m. We called on the Empsons & drove to farm house. After dinner I showed her wood gardens & we walked to Rutchin place. I drove her to station & she took 4:11 train back to Concord.

Wea.

MONDAY 28

Ther.

46°

Heavy N. E. storm with cascades 58° downpour of rain from daybreak to dark. Altogether a most dismal & gloomy day.

58°

Spent several hours with the two men & Gilbert clearing out the garden. It has been a rubbish hole infested by mice & squirrels. I propose to keep it tidy after this.

Walked to Balls Hill & back on P. M. going via Birch Hill & Pine Ridge & returning via Holden's Hill.

Saw very few birds. A house wren song. Purple Lark in field bloom at Balls Hill.

Concord - Cambridge.

Wea.

TUES. MAY 29, 1906

Ther.

43°

Clearing with high N. W. wind. 62°

To Cambridge with Gilbert by 9.43 train returning by 5.01 P. M. train from Arlington, Concord C. at home. We dined in my den. Saw Mrs. Atony & had an hour's talk with Walter. The garden looking very well. A Robin, Catbird, Redstart & Yellow Warbler singing. Most of our trees were sprouted last week and Walter says no birds are nesting yet.

Wea.

WEDNESDAY 30

Ther.

41°

Brilliantly clear with strong, 66° cool N. W. wind.

Dined at the cabin with Gilbert. Spent most of forenoon on the way down & of after noon coming back rambling everywhere through our woods. They are now in nearly full leaf. The winged worms seem to be wholly over. Saw a Purple Martin flying high. The river has overflowed the meadows & is about as high as when I came here in April.

Wea. THUR. MAY 31, 1906 Ther.
78°

Clear with light N. wind, 73°

Spent most of day at
the Bungtown with the Cooperites.

Had several short walks in
the woods near the house.

A black-poll Warbler was
singing this morning in the
oaks near the barn. This is

the only north-bound migrant
I have noted for several days.

Dr. Chamberlain ~~reported~~ ^{noted} this note
Forbush found near this evening.

Wea. FRI. JUNE 1 Ther.
53°

Clear with fresh S.W. winds 81°

Spent most of day with
the Cooperites at the Bungtown.

Had a good walk in the woods
at evening but did not go far
from the house. Forbush is
ill from arsenic poison. His
face is badly swollen. He did
not go out a day.

Saw a male Adela following a young
one through in one orchard.

Took the birds on field day

Wea. SAT. JUNE 2, 1906 Ther.
64°

Clear with light S.W. wind 82°
Several thunder showers passed to
the northward in P.M.

Spent A.M. at Bungtown with
the Cooperites. In P.M. we all
went to Ball's Hill to put up the
rustic "retreat" that we have been working.

The mosquitoes were terrible there.

Found a freshly killed Rabbit with
the head missing. It was a ♀ about
to give birth to young. Forbush a little better
a day but still confined to his room.

Wea. SUNDAY 3 Ther.
58°

Brilliantly clear with strong
N.W. wind. 76°

Arrival
Yellow-bellied Flycatcher 1 he near Ball's Hill

Wrote letters in forenoon. Started
for Ball's Hill at 11.30. Dined at
the cabin. Went out sailing in the
docked our canoe at 3 P.M. Sailed
to head of Great Meadows through a
winding approach of half submerged
grass. Walked slowly back to camp
at camp.

Wea. MON. JUNE 4, 1906 Ther.

Clear & warm with fresh S.W. wind. 50°
80°

Spent most of day with the carpenters & writing letters.

Walked to Ritchie place & the berry pasture at evening. Birds sang well all day long. Our honey locust trees in bloom. Last night about 10 o'clock I saw two Screech Owls perched within a yard of each other in a locust in front of the house. One of them waited a few moments.

Wea. TUESDAY 5 Ther.

Cloudy with light S.W. wind which brought rain at evening. 3-9°
80°

Spent day in Prescott's pine woods where James & Charlie cut a lot of tall slender young pines to be peeled for timbers & poles for building purposes. I also worked in the carpenter shop most of the day. Gilbert went to Cambridge & Boston.

Concord - Cambridge - Wolfboro.

Wea. WED. JUNE 6, 1906 Ther.

Cloudy & sultry with light S.W. wind. Heavy rain at night.

Spent forenoon working about the place with James & Charlie. We took up the crows feet & planted annuals in their place. Also set out a lot of cactus dahlias. Drove to Concord in P.M. & took 4.20 train for Cambridge where I spent the night. G. & I had tea on back porch & then called on Walter & Margie.

Wea. THURSDAY 7 Ther.

Cloudy with strong N.W. wind and intermittent showers of fine rain. Mackintosh & I took 8.30 train for Wolfboro reaching there at 12.30. Spent P.M. at about Academy giving directions for completing the work of grubbing & clearing up the grounds. Called on my cousin Jess at the Abbey. Spent night at the hotel. Ada, her baby & her brother Supt. the only ones there. Saw a few Martins & Chimney Swifts. Both are fewer than usual. Only one Redpoll.

Wea.

FRI. JUNE 8, 1906

Ther.

Cloudy with light rain in early morning. Wind at first N. E. changing to S. W. at noon.

Marion & I returned by 8.30 a.m. train. Reading Boston at 12.30 I went to office, signed some checks & had a talk with Arthur E. Back to North Station at 1.30 & took 1.47 train to W. Bedford. Walked from station to river & from Balls Hill to farm without any baggage. Had about us from way by is evidently newly cut

Wea.

SATURDAY 9

Ther.

Clear & oppressively hot with light S. W. wind. Heavy thunder showers at evening.

C., E. R. S., Miss Allen came up from Cambridge by the 10 a.m. train. They were joined in Concord by Edward Emerson, Miss Emerson and Miss Ellen Emerson. The party of seven arrived at the farm about noon & dined with us. We then walked to Balls Hill where they departed by conveyance at 3.45 P.M.

Concord - Cambridge - Bethel.

Wea.

SUN. JUNE 10, 1906

Ther.

Clear with strong W. wind. Very warm. Thunder shower at evening with violent wind.

Spent a.m. about the farm. Blew a set of Golden winged Warblers eggs that C. or perhaps got for me in Waverley on June 5. Drove to cabin at 3 P.M. & took 4.15 train for Cambridge. At 5.15 I was at the car on Ball's Hill the thunder squall struck. The wind was terrific for a moment & one of the larger branches of our catalpa split with a loud crash. C. went to see in evening.

Wea.

MONDAY 11

Ther.

Brilliantly clear with high N. W. wind.

C. started for Dalton, Mass. this morning with E. R. S. & I took the 9 a.m. train for Bethel, where I arrived at 4.30 P.M. Dr. Gehring met me at station. I found at the house Mrs. Gehring, Iving, Miss Colburn, Miss Beck & two other women patients. The doctor & I walked about the place before dinner. The Gehrings are planning to turn the old here house building (100 ft. long) into a bungalow with a number of chambers

Bethel

Wea. TUES. JUNE 12, 1906 Ther. 32°

Brilliantly clear with high, cold N.W. wind. A hard frost last night killing many vegetables & also ferns.

Spent day about the place. The Doctor & I went to the Shock after breakfast. In late P.M. we worked at his looking. The high cold wind belated most of the birds. Last evening Veeries were singing all about the house but I heard no Thrushes. Heard no less than 4 Woodbury Vireos which driving from station to house.

Wea. WEDNESDAY 13 Ther.

Clear & warm with lessening N.W. wind 72°
To the Shock, down, at 9 a.m. Heard three
surreal Redstarts, a Canadian Warbler, a
Water Thrush, an Ovenbird, a Red eye,
a Least Flycatcher, a Chickadee, Red Crossbills
singing. Nashville Warblers & Chase and Killers
also singing. Particularly good in distance.
Returning ascended to Slick Hollow & the
Fogot road. Lots of birds there. Heard
a Yellow-thr. Vireo, a Martin, an Oriole etc.
besides olive with Clough's, Robins, Least 7'
Orchard 4 or 5 flocks of Birch Bark at the mill

Bethel - Cambridge

Wea. THUR. JUNE 14, 1906 Ther.

Clear and warm with light N.W. to N.E. winds.
Spent day about the place Dr. G. with me most of the time. Dr. G. we supervised the rather difficult & dangerous task of cutting down a large maple on the campus that the wind had bent over & was dead. In P.M. we went to the Shock with Jansy. It was very beautiful & perfect there. In the evening I called on the Thrushes & on Miss Ann.

Wea. FRIDAY 15 Ther.

Clear, calm, cool. E. wind in P.M.

Left Bethel by the 9 a.m. train. Dr. G. went as far as Portland with me. From there to Boston I was entertained by the fine singing of a quartette of college students who were in the standing compartment of the parlor car. They had fine voices. Got home about 5 P.M. C. returning from Dedham, Mass. when the low spirit the wind, found me at 7 P.M.

Concord - Wolfboro.

Wea. WED. JUNE 20, 1906 Ther.

Clear, calm, warm

Drove to Concord & took 8 a. m. train for Boston when I joined Arthur, Westbrook & Dr. Minkland on 9 a. m. for Wiers.

Arrived there at 12.20 & found the West Wind at wharf. Delightful sail across Lake, Boston meeting in Academy 3.30 - 5.30 P.M.

Present J. S. Brewster, Prof. J. K. Lord, Dr. Minkland, Judge Abbott, Dr. Scoll, Arthur E., Mackintosh & myself. Justus dinner at Hotel Inn 5.30 - 7 P.M. Carroll D. Wright with us. My only work. Went to bed at 8.30 & enjoyed ~~gloriously~~ ~~exceedingly~~ ~~at~~ ~~town~~ ~~had~~ ~~had~~ ~~Wright~~ ~~from~~ ~~address~~.

Wea. THURSDAY 21 Ther.

Clear, calm, warm.

Spent day on Lake in steamer West Wind chartered by Arthur. All the teachers

& Justus went. It was delightful on the water. Saw ad. Bald Eagle & a Gr. Blue Heron but no loons. They are said to be getting very scarce. A great colony of Lake Swallows on building nests under eaves of new Academy. Red Crossbills in elms in our grounds. Martins common. Heard Vireo flavifrons at jetty in village. Went to Wiers at evening. Stayed at the hotel. Aida, Molly & Sleep there.

Wolfboro - Cambridge.

Wea. FRI. JUNE 22, 1906 Ther.

Sunny but heavy, very warm

Mackintosh, Minkland & I returned to Boston by 8.30 a. m. train. Went to office & sorting cards. Sold 25 sh. Ann. Fall. & Fall & was sorry to subscribe for 43 sh. Bos. Wharf (new stock). Came out to Cambridge in P.M. to spend night there. C. at Harry & May Cummings (Mackintosh) since Wednesday. She was to go to Pigeon Cove to-day to board at Mrs. Shorey's.

Wea. SATURDAY 23 Ther.

Cloudy with strong N.E. wind
Thunder shower at 1 P.M.

Spent A.M. in Museum
Took 2.04 P.M. train for Concord with Gilbert. Forbid friend was across river & we walked from Balls Hill to the farm house. Soon after reaching there Gilbert was taller etc. I telephoned at once for Dr. Chamblaine. When he arrived at 8 P.M. Gilbert was much better.

Concord.

Wea. . . SUN. JUNE 24, 1906 Ther.

Clear & cool with light N.E. wind

Sarah Ames, her son Johnny & her nephew Fernal Adams came down on bicycles about 10 a.m. & stayed until noon. The boys were eager to see birds & nests & I showed them all I could on the farm & kitchen floor.

Jack Nichols dined with me & I advised him about his fernery. Did some work in garden in P.M. Tracks of a Coon & small deer seen pond

Wea. MONDAY 25 Ther.

Clear & cool with light N.W. wind.

Spent day in Preser's place working with James & Charley. Took bath with us in A.M. We cut & peeled a lot of young straight white pines for Christmas. A Blackbird & a Pine Warbler singing near us all day.

Something, perhaps a Sparrow is raiding nests close about the house. A Red eye & a Wood Pewee's believed of their song since last evening

Concord - Boston - Glendale.

Wea. TUES. JUNE 26, 1906 Ther.

Clear & cool with light N.W. wind

Drove to Concord & took 8.06 train for Boston. Called at office & also bought new steam heat. Took 10.15 train for Glendale. Dan & Mrs. F. met me with their carriage at station. Dan & I went to the postman before coffee. A Hermit, Wood Thrush, King, Grosbeak, Black & Yellow, Black - the. Blue & Blackbird were singing. No birds at home now

Wea. WEDNESDAY 27 Ther.

Clear and warm with light S.W. wind. A typical June day.

Spent A.M. in studio & in the lumber yard at 10 a.m. working up notes etc. In P.M. Dan began a postal portrait of me. Before we had a long walk through the pine plantation, to the hill pond & to the Litchie place where we saw blackbirds of numerous kinds in full bloom of plumage. Saw a dozen pairs of the same "Litchie Pond" like flock of the same species in the woods

Glendale

Wea.

THUR. JUNE 28, 1906

Ther.

Clear, calm very warm.

Dan spent day at Worcester departing just after breakfast. I wrote letters in A.M. & sent letters & telegram to Arthur Estabrook about applying Essex Grammar books for new books. Took several short, solitary walks, then of them to the postoffice. Mr. & Mrs. Robert Bush arrived from New York by the evening train.

Wea.

FRIDAY 29

Ther.

Clear and very warm with light S. W. wind.

Spent most of day in studio reading & writing. Dan gave me a telling of an hour for my posted postcard in P.M. Later a number of people called among them the Crowningshields & Miss Hoast. We spent evening in the studio & on the piazza. Whiffers were singing & feet were fluttering.

Glendale.

Wea.

SAT. JUNE 30, 1906

Ther.

Chiefly cloudy with heavy showers at evening & early in night. Very hot day.

Spent day in studio writing a few letters & reading Julian Deewood. Dan put in nearly two hours on the posted postcard in P.M. Later he, Bush & I went to the postoffice with Mrs. Robinson of the next Ave. Museum arrived from N. Y. to spend Sunday tea on corner & evening on that postcard.

Wea.

SUN. JULY 1

Ther.

Clear and cool with light N. W. wind

Spent most of day in home & studio. Mr. & Mrs. Titus & a Miss Peay called. In late P.M. Dan, Mr. Bush, Mr. Robinson & I went to the postoffice where we spent an hour on the brink of the deep hill above the Arch. Bunch. Birds were very numerous & singing freely. A glaucous-colored Humbird hied on the mountain crest & sang very sweetly. After dark there were Whiffers & fireflies.

Glendale - Cambridge.

Wea. MON. JULY 2, 1906 Ther.

Chiefly cloudy with heavy thunder showers at night.

Spent most of day in studio reading. Dan gave me a long sitting in P.M. & almost finished my pastel portraits which bids fair to be a good thing. At 5 P.M. we started for a walk. Went to Knight's ice pond where we found Nests in usual numbers. A pair of Carolina Doves flew over pond & alighted in some dead pine grass and were some way into family in studio.

Wea. TUESDAY 3 Ther.

Partly cloudy & very still, with heavy rain at evening.

Took 10.27 train for Boston. While waiting at station saw pair of Ring-billed Gulls flying over. Then with 6 Bank Swallows. The Ring-billed had 3 full grown young perched on the wire over me & fed them repeatedly. I walked there with my glass & identified them possibly. As train was passing over saw a large fish swimming in river was taken at Pittsford center bridge train from Chicago & found Gray & May Deane in parlor car returning from Alapka. Reached home at 5 P.M. & found C. well. About 6 P.M. came into study & told C. had been seen on the river.

Cambridge.

Wea. WED. JULY 4, 1906 Ther.

Clouds most of day, with occasional light showers.

Spent a.m. in Museum with Walter. Sam Henchard & Ben Curtis dined with C. & me on back piazza 1 P.M. Wrote letters in P.M. & walked up Highland St. with Davy. A Robin, Yellow Warbler, Yellow Thr. Vireo, Gt. Blue Cuckoo, Chipping & Yellow Warbler singing in garden. Two young Oriole seen there. The Spraying last May & June has protected most of foliage & there are but few Gypsy moths on the floor.

Wea. THURSDAY 5 Ther.

Clear & cool with light E. wind.

C. has had "Betty" & the summer carriage brought from Concord during the past week and this morning she drove me around Fresh Pond. It was very pretty there with chikony in full bloom. Two men fishing from boat. Kingfisher flying about. Spent most of day in Museum. Surprise party for me at dinner at Gallery Club at evening. C. Betty Jefferson & Howard, Walter & Margie, Gray & May Deane, Mr. Bennett. We got home at 9.30 P.M. One hawk seen in the woods. They came flying through the trees.

Wea.

FRI. JULY 6, 1906

Ther.

Clear and cool with light S. E. wind.

To Boston at 11 a.m. Went direct to 15 State St. & had interviews with Bennis & Buttrick about exchanging our estate investment in U. S. bonds for Mass. bonds. Buttrick & I saw Solomon Dinesen about it. He advises it as did Mr. Bennett whose advice I called last night. I finally gave my consent to it if the Probate Judge will sanction it. Mr. Dinesen & I visited Safeguards & got off T. & M. Comp. cars for home at P. M.

Wea.

SATURDAY 7

Ther.

Clear and cool with light S. E. wind.

C. drove me around Fresh Pond after breakfast. Saw two adult & Red-wing there. The Moxe Swamp is utterly ruined. Only a few of the large trees remain standing. The park drive about the pond is undeniably pretty in places but too artificial for my taste.

To West Bedford by 5:01 train. Forbush ferried me across to Balls Hill where I am to spend the night. Walked to Pine Park & Hill's Hill at evening.

Wea.

SUN. JULY 8, 1906

Ther.

Partly cloudy. Rather cool with S. E. wind.

Spent A. M. in woods on & near Balls Hill. Many small birds, singing freely, but few of them with young. To farm in P. M. by way of Dennis returning via Davis Hill. Lots of birds about farm house. Tracks of big buck in mill field on Ratchet place. Wilson's Thrushes singing at eve. Heard 4 in my return walk. A Whistling King last evening & this in woods near Stone Boat house. A Grosbeak being taken all day. At 10 P. M. heard in flanked woods opposite cabin a kie. kie. quaw-quaw something like, just under, the Killis key.

Wea.

MONDAY 9

Ther.

Cloudy with light rain in forenoon. Wind S. W.

Returned to Cambridge by 8:15 a.m. train from W. Bedford. Spent most of day in museum, waiting letters etc. Purdie took tea with me on back piazza & spent the evening. C. has been confined to her room for the past two days by a tired head.

Cambridge - Boston - Concord

Wea. SAT. JULY 14, 1906 Ther.

Clear with light, cool E. wind.

To Boston at 9 a.m. Arthur B.

& I met Solomon Linnick by appointment in his office at 10.30. He says the cannot be authorized by any court to invest in Mass. bonds but he advises us to do it without authorization. He afterwards consulted Benning about it but reached no final decision.

Took 1.47 train for Concord. Packed up things to Benning down. Report at 1.47 by 6.00 Red. wings that to leave there.

Wea. SUNDAY 15 Ther.

Clear & warm with light S. wind.

Took a walk after breakfast going to Holderness Hill & the Alkanna woods. Walked to the farm in P.M. by way of Beersons & the Ricketts farm. Returning at evening via Brookfield, Peabody farms & Down's Hill. Some deer tracks in Birch field & Green field. many people on the way. Saw four & five Hoop on field edge of the woods.

Concord - Cambridge.

Wea. MON. JULY 16, 1906 Ther.

Clear & warm with light S. wind

Returned to Cambridge by 8.13 a.m. train. Spent day in Museum writing letters. Gilburt remained in Concord to get berries & vegetables. Walter at printers all day looking after printing of index. It is nearly through the press & the other book will be finished to-morrow.

Messrs. Baldwin & Rennie called at 8 P.M. Purdie dined with me 7. & spent evening. Rennie showed me a copy of a young Gloriana just killed Harry Bay.

Wea. TUESDAY 17 Ther.

Clear & oppressively hot & sultry. Heavy shower with distant thunder 5.30 - 7 P.M.

Spent day in Museum writing letters etc. Mr. Ketchum called in P.M. bringing down of Hoyle's North house, all by hand birds. Walter at printers in evening. All but a few pages of one book are now printed. James telephoned me about 5.45 that the Ricketts farm had just been struck by lightning & was burning down.

Cambridge - Concord - Boston.

Wea. WED. JULY 18, 1906 Ther.

Clear & warm with light S.W. wind.

To West Bedford with Gilbert by 8.34 train. Crossed river & walked to Ralphe place. Barn & shed wholly gone the remains still smoldering. The neighbors got out all our farming tools & the old Giddard Corp., 6 tons oat fodder, 3000 ft. chestnut planks, 400 ft pine slabs & 3/4 ton phosphorus were burned. I in a car from home & took chairs W. Bedford to Cambridge at 2 P.M. Reading hour about 4. The very last significant Birds of Cambridge arrived to day. Walter is very tired by his ^{work} ~~work~~ on this task.

Wea. THURSDAY 19 Ther.

Clear and warm.

Devoted most of day to Duve the Cambridge furniture mover. He called by appointment at 9 a.m. & at our Boston office at 1 P.M. He is financially embarrassed & C. & I decided to help him out if his story proved true. He decided to honor as I found out this evening by telephoning to Dr. Freeman of Somerville to whom he claimed he had paid \$500. for an operation. Called on Mr. Bennett at his office 12 M. He advised me not to consent to charging over U.S. to Mrs. Bennett. Afternoon told Bennett & Bennett & then got home at 5.30.

Cambridge - Concord.

Wea. FRI. JULY 20, 1906 Ther.

Forenoon sunny; afternoon cloudy. Warm.

Du've called at 9 a.m. I accused him of deceiving me about his debts etc. He at first denied & finally confessed that I then told him we should not help him.

Mrs. Wymon, Mrs. Howland & E.R.S. took tea with C. & me on back piazza at 6.30. Young Curtis & a boy friend of his called at 8 P.M. Walter & Marge D. went to Shelburne N.H. to-day. A stitched copy with plates Birds of Cambridge sent to me from binder for approval this day.

Wea. SATURDAY 21 Ther.

Cloudy, calm & oppressively sultry. From undress thunder shower 7-8 P.M.

To Concord by 9.06 a.m. Fitchburg R.R. train. Lettie man drove me to farm where I met Gilbert & Harbuck dined there & drove to Bolton then in farm wagon at 5 P.M.

Packed up war in Stella Maria canoe & floated for an hour opposite Boston's Landing. Counted 162 Red-wings flying to water. Two Night Herons & (5) Black Ducks passed over higher up. The mosquitoes are falling off. Most frogs & Green frogs from nearby pond. Home! A quiet comfortable night.

Concord, Cambridge - Boston.

Wea. SUN. JULY 22, 1906 Ther.

Clear & intensely hot with light N. wind.

Furbush & I spent forenoon tinkering locks, catches etc. on the cabin doors.

In P. M. walked to Holden's Hill.

It was so insufferably hot & close in the woods I was glad to return to the cabin where I had a nap.

Paddled up river after supper to watch the Blackbirds come to roost in the woods about the lagoon. Saw about 500 all apparently Red-wings, 40 or 50 Barn Swallows passed & appeared but did not settle. A Green Heron seen & a Night Heron heard. 3 or 4 Red-coats, Red-winged Blackbird, Song Sparrows, Robins & a Whistling Swallow.

Wea. MONDAY 23 Ther.

Cloudy with rather frequent showers. Very humid & "stinky".

To Boston by 8.15 train

Went to office & talked with Arthur & Leander about meeting trust funds in Mass. bond. Leander & I consulted Solomon Binns about it. He still advises it but says nothing can give us a legal right to do it without consent of all the beneficiaries. I would establish a moral right.

Came out at noon. Dined with C. on back porch. Spent P. M. with my pen. Leander called at 8.15. Ruth Greenough arrived at 10 P. M. & had my tea.

Cambridge - South Yarmouth

Wea. TUES. JULY 24, 1906 Ther.

Cloudy, calm, sultry.

Spent day in museum writing letters etc. C. departed just after breakfast to spend the night in Dedham with Mrs. Walter Greening & Ruth Greening. Left a letter later for West Chest. Bird's house nearly closed bringing water past few days. I heard to-day a Yellow-bird, a Goldfinch, a Wood Pewee in full song, a Red-eye, a Robin & a Song Sparrow. Nearly all the birds in Cambridge have been flushed of foliage by the Beavers. Poor tree-overs. Through early & had breakfast all evening. R. J. Jackson & Sam Hargis on boat tea & party coming with me.

Wea. WEDNESDAY 25 Ther.

Clear with fresh cool N.W. wind (Cloudy with N.E. wind at South Yarmouth)

Spent A. M. in museum writing letters etc. Took 4.08 P. M. for South Yarmouth where I am to spend a couple of days with Will & Alice Stone. Reached their house about 7 P. M.

The Cape country is greener than I ever saw it before on this season owing to the unusual seasonfall. The "bouncing bet" about the house in full bloom & very beautiful.

South Yarmouth.

Wea. THUR. JULY 26, 1906 Ther.

Cloudy with N. E. wind and fine, mist-like rain

The Stones drove me over to West Yarmouth in A.M. to see a hollow in the sand by the roadside where 5 eggs of the T. hella was found early this month.

We walked to Swan Pond in P.M. & spent an hour there. Found a beautiful snow white orchid. Ten Wilson's Terns fishing in pond. Ten Kingfishers, two Nighthawks, a Green Heron & a Spotted Sandpiper seen there. Called on the Donnes at 5.30.

Wea. FRIDAY 27 Ther.

Cloudy most of day. Light N. E. wind. Spent the afternoon at home & calling on the neighbors (Mrs. Donald & Mrs. Gray, Miss Kitching, Mrs. Stevens) In P.M. took Mrs. Taylor with car & drove to Horse Pond & back by way of the Plashes Ponds where there is said to be a Heron & when we saw 2 Nighthawks. Heard seven Heron Thrushes in full song. Also heard Towhees, Wood Peckers, Red eye Robins etc. Spent evening in parlor talking. Several neighbors called

Sabbath & Calvary from Boston.

South Yarmouth, Boston - Concord - Cambridge.

Wea. SAT. JULY 28, 1906 Ther.

[Heavy thunder shown 7 P.M.]

Brilliantly clear with cool N. E. wind.

Left South Yarmouth by 9.46 A.M. train & reached Boston at 11.30.

Went to office & some bookkeeping.

Next called at 216 Washington St. & spent an hour or more talking with Demick & Kimball about gun prohibition.

Met C. & George Kettle at North Station at 3.45. George & I took 4.47 train to West Bedford. Toobush ferried us across the river & James met us at Back Gate with odd Charley horse & the buggy with which we drove to the farm where we were to spend Sunday.

Wea. SUNDAY 29 Ther.

Concord (the farm)

Sunny most of day with strong S. W. wind. Very pretty in early forenoon.

A cooled day to entertaining George Kettle. In A.M. took him to see Lawrence's barn & to call at the Howes where we found the entire family (save one son) assembled. Mrs. Howe gave us some beautiful sweet peas.

In P.M. we wandered about the farm & sat smoking & talking in the parlor. Indigo Bird, Field Sparrow, Towhee & Song Sparrows singing well, Red-eyes fully, Chipping Sparrows feeding young in parlor floor. James has seen a Deer in front of our house & sometimes on the Kitching place within the past week.

Wea.

MON. JULY 30, 1906

Ther.

Clear & hot with light S. W. wind. Heavy rain last night & early this morning.

It was pouring at breakfast time but when we drove to Concord to take the 8.06 train the rain had ceased. George went through to Boston but Gilbert & I got off at Arlington & reached home at 9.30.

E. R. S. came up at 10.30 & the, Gilbert & I wrapped & addressed about fifty copies of my Birds of Cambridge notes of which we sent off in P. M. or delivered about Cambridge. The copies were sent to the museum on Friday. Saw Mr. Agoston in P. M.

Wea.

TUESDAY 31

Ther.

Sunny but hazy. Cooler with light E. wind.

Spent day in Museum writing letters etc. C. & her brother George went to Chelmsford to see the Battlers. There are few birds about the place now. I saw to-day a Yellow Warbler & a Robin & heard a Red-eye & Yellow-bill Cuckoo singing a little & a Goldfinch in front door. A Yellow-collared & downy Chipping-chickadee.

Wea.

WED. AUG. 1, 1906

Ther.

Sunny but very hazy with cool E. wind.

Spent forenoon in Museum writing letters etc. In P. M. took George Kettell on an automobile ride. We went through the Boston park system to Town Hill and then through all the Newtons & Walthams. Starting at 3 & getting back at 5 P. M.

At 6 P. M. we went to the Oakley Club where we dined & spent most of evening. Walter & Margie Deane returned from Shelburne to-day.

Wea.

THURSDAY 2

Ther.

Sunny but very hazy with cool E. wind

To Pigeon Cove by 10.45 train. Dined with Beamer, A. A., Edwin, Helen, Will, & Edwin Brewster. I went down especially to see a portrait of my father that Anna Brewster has just painted. It is very good. Returned by 4 P. M. train. Mrs. Cobb took Tom with us. Walter called. George Kettell & I got up late talking. Robin were entirely deserted of color. I think the birds have been driven off by Seaside Owls. Heard one Owl this evening.

First Tree Cricket to-night.

Wea.

FRI. AUG. 3, 1906

Ther.

Cloudy with cool E. wind.
Heavy rain after dark & through night.

Spent day in Museum writing letters etc. Gilbert went to Concord. Walter with me through forenoon. We sent off some Birds of Cambridge. I have distributed nearly 100 copies thus far. O.A. Bothwell took tea with me on back piazza & spent evening. No birds sang in garden & day saw a Red. eye & he but feebly.

Wea.

SATURDAY 4

Ther.

Cloudy with frequent showers of fine rain in A.M. & a succession of heavy thunder showers in late P.M.

Spent A.M. in Museum writing letters. To Concord with Purdie by 4.47 train from Boston in P.M. Forbush met us at W. Bedford with rubber coats & boots. We waited in station over an hour until the heavy rain ceased & then crossed the river & walked to the farm. It was hot, sultry & calm.

Wea.

SUN. AUG. 5, 1906

Ther.

Cloudless, calm, humid, intensely hot.

Purdie & I walked about the farm after breakfast & to Petersens at 11 a.m. We went to Ball's Hill in P.M. Spending an hour or more with Forbush in his cabin which was agreeably cool. It was steaming everywhere in the woods & blinding hot in the fields & roads. Birds sang rather feebly in early morning when I heard Song Sparrows, Field Sparrows, Wood Pewee, Indigo Bird.

Wea.

MONDAY 6

Ther.

Clear with light S.W. wind. The 93° max. hottest day of the summer thus far. A thunder shower in late P.M. cooled the air a little.

Purdie, Gilbert & I drove to Concord to take the 8.06 A.M. train. I reached home at 9.30 and spent day in Museum writing letters & notes. Almost every mail brings letters of acknowledgment for my book. All seem appreciative & some are very kind especially one from Taylor & another from William Stone.

Wea.

TUES. AUG. 7, 1906

Ther.

Clear & warm but with a dry, cool E. wind.

To Mrs. Comp. Zoology at 10 a.m. C. drove me there. I spent the day working on the Bryant collection of birds. There are several cases which I did not deal with last summer & which I hope to finish in a week or two more.

Andrew Bangs called on me in P.M. Heard a Yellow-billed Cuckoo singing in the Popping flower. Two Swifts flying over gate here at 5 P.M.

Wea.

WEDNESDAY 8

Ther.

Cloudy with heavy rain in the forenoon. Calm & rather sultry.

To Museum Comp. Zool. at 10 a.m. working up to 1 P.M. on the Bryant birds in company with Mr. Parkley Mr. Newsham's assistant who is writing labels on them. A Red-eye singing near the Museum. C. came at 1 P.M. to drive me back to dinner. Spent P.M. in my own museum. Same Hepburn came to supper & spent evening

Wea.

THUR. AUG. 9, 1906

Ther.

Brilliantly clear with light N.E. wind. Plesantly cool. 76° max.

Walked to Mrs. Comp. Zool. at 10 a.m. and worked there on the Bryant collection until 1 P.M. when C. called for me with "Betty" & drove me home to dinner. Spent P.M. writing letters. A Red-eye, a Robin & a Chipping Swift were the only birds noted in our garden to-day. E. R. S. took tea with me. C. had a headache & went to the fountain house at 8.30.

Wea.

FRIDAY 10

Ther.

Forenoon sunny with cool N.E. wind. Afternoon cloudy with rain after five o'clock.

Spent forenoon working on the Bryant collection at Mrs. Comp. Zool. Michael Murphy drove me down & back. In the afternoon I wrote letters. Heard a Red-eye singing here early this morning - earliest near the Museum in the forenoon.

Concord

Wea. SAT. AUG. 11, 1906 Ther.

Partly cloudy. Sundry S. W. wind.

To Concord with Gilbert day 8. 34
A. M. Train. Crossed river to
Ball's Hill where I am to stay
over Sunday. James & Cherry
came down after dinner &
walked with Forbush. We dug
down under the lateral & found
it about two feet. Very few
birds about. Mosquitoes & deer
flies about done.

Wea. SUNDAY 12 Ther.

Clear & very warm with light
W. wind.

Spent A. M. walking about
the cobble with Forbush. Pieper
came at 2 P. M. & I took him
to the farm to see the fly clouds
which I shall have him print
next next month. Saw two
young Cooper's Hawks in Green field.
They perched on fence posts & flew
down to the ground and over
the field alighting on the grass.
The men also with people to-day

Cambridge

Wea. MON. AUG. 13, 1906 Ther.

Brilliantly clear with cool N. E. wind.

Gilbert & I returned to Cambridge
by 8. 13 train from W. Bedford.
Spent most of day in Museum writing
letters. In late P. M. took a drive with
C. Mrs. Thayer, and E. R. S. We went
first through the Riverside drive & Soldiers Field
where I saw a Sparrow Hawk & 9 Crows
and up around Fresh Pond where I saw 2
Kingfishers, 2 Spotted Sandpeppers & 1 Down Swallow
E. R. S. took tea with us. Mrs. Hois House & Miss Hois
E. R. S. called at 8 P. M.

Wea. TUESDAY 14 Ther.

Clear, calm, warmer

To Mrs. Comp. Tool, at 10 A. M.,
walking down. Took my lunch & walked
on the birds until 4 P. M. when Geo.
came for me with the summer coat
& Betty home. Saw Mr. Agassiz and
Faxon in P. M. Hunt a Yellow Billed
Cuckoo singing, a Grackle chick singing
twice & a Red-eye heard repeatedly, all
in the Museum grounds.
Walter & Margie Dean called at 8 P. M.

Wea. WED. AUG. 15, 1906 Ther.

Brilliantly clear & pleasantly cool with light N. Wind.

To Mus. Camp. Zool. at 10.30 a.m., walking down. Worked on Bryant Coll. until 4 P.M. when I started for home via Howard Square where I had my hair cut. Heard a Yellow-billed Cuckoo sing there near the Museum & saw two Red-eyed Vireos there.

In our Garden heard a Goldfinch, a Flicker and an Oriole (chattering). A Red-eye singing in early morning. Took tea at Walter & Mary's Domes with Dr. Townsend who has just returned from Colorado.

Wea. THURSDAY 16 Ther.

Clear, calm, warmer. A really perfect day.

C. & E. R.S. went to Concord to-day to lunch at the Emersons. We all left the house together at 10.15 & I was left at Museum Camp. Took other I spent day, working on Bryant birds. Heard a Yellow-billed Cuckoo singing & saw a Robin, Junco, Flicker & two Swifts. Heard another Yellow-bill in our garden, this morning.

Wea. FRI. AUG. 17, 1906 Ther.

Clear calm, warmer. Still, yet not uncomfortably so.

C. drove me to Mus. Camp. Zool. at 10 a.m. and I worked there until 4 P.M. when she called for me & drove me home. I have now finished all but a part of one case of the Bryant Collection. Heard a Yellow-throated Vireo singing freely in the Museum grounds.

C. & I called on the Walter Domes this evening.

Wea. SATURDAY 18 Ther.

Clear, calm, hot.

Gilbert & I took the 8.34 train for Concord. C. drove me to the Station. I went to Concord myself & called at Mrs. White's (she was away) the bank & the Middlesex Ins. Co. Jettie's room drove me about town & down to the cabin. Worked all P.M. with James Charles & Jacobus clearing the brush from the road to Davis Hill. Padded up to the loggia at sunset.

Wea.

SUN. AUG. 19, 1906

Ther.

93°

Cloudless & intensely hot. Wind S.W.

Spent a.m. with Torbush
tinkering things about the cabin. A
big mixed flock drifting back & forth
all day along river banks. It contained
4 or more Chickadees, 3 or 4 Red-eyes,
4 or 5 Black & White Crows, 3 Nuthatch
Warblers, a beautiful ♂ Golden wing W., a
♂ & ♀ juv. Black-brownie, 4 or 5 Black
throated Greens, 5 Chestnut sided warblers
& a Redstart. Walked to farm in P.M.
Tied birds then. Custer & his found one
of an Owl & went to Jay Island.

Wea.

MONDAY 20

Ther.

A.M. Clear; P.M. Cloudy. Intensely
hot with strong S.W. wind.

Gilbert & I returned to Cambridge
by 8.13 train. I spent day
in Museum writing letters &
notes. Walter called in P.M. He
is not working this month.

Gilbert is dusting the books now.
A few birds in the Garden - several
Robins, a Black & White Crow, a
Red-eye, two young Orioles, 3 Cedar Birds,
a Heron, 6 Goldfinches, a Flicker, a
Downy, a Grackle & 7 Jays & a Maryland
Yellowthroat.

Wea.

TUES. AUG. 21, 1906

Ther.

Cloudy most of day with showers. Cooler.

Spent day in Museum writing letters &
notes. Mr. Kechnie called in P.M.
Saw or heard in Garden Robins (5 or 6), Cedar
Birds (3), Black & White Crow (♂), Yellow
Warbler (♂ juv.) Oven bird (1), Redstart (1 in ♀),
Red-eyed Vireo (♂ ad. & early, none), Yellow-throated
Vireo (♂ ad. & a.m.) Goldfinch (several adults)
Orisks: ♂ ad. & 3 juv. Grackle (1), Flicker (2), Downy
W. 1, Kingbird (2), Crow (1) & one Swallow (3)
flying low, calling. B. & W. finch with heard a.m.
Sings in all 18 hours.

Wea.

WEDNESDAY 22

Ther.

Partly cloudy with light showers.

Intensely hot & unseasonably humid.

Spent day in Museum writing letters.
C. has been ill for three days but is now
better. A number of birds in Garden
this morning Robins (several), Yellow Warbler
(1 ♂ juv.) Maryland Yellowthroat (1 ♀),
Red-eyed Vireo (4 or 5), Yellow-billed Cuckoo (1 ♂),
Orisks (2 ad. ♂ 4 juv.), Kingbirds (3),
Chipping Swifts (3) Cedar Birds (4) Goldfinches
(several adults) Crow Blackbird (2), Flicker (1)

Wea. THUR. AUG. 23, 1906 Ther.

Clear & intensely hot with burning S. W. wind. Thunder showers on evening followed by a cool, almost chilly, N. E. wind.

Spent a.m. in Museum working. To Portland with C. by 1 P.M. train. It was hopping in the parlor car. On arriving drove to the Hoopville where we meet Dr. Gehring by appointment at 5.30. He had a long interview with C. & me at once and a shorter one after supper. He returned to Bethel by 8.30 train.

Wea. FRIDAY 24 Ther.

Brilliantly clear & deliciously cool. C. & I walked to Deering Park after breakfast & spent an hour there. After that we strolled through State & Irving streets admiring the fine old houses. We walked out the hotel at 12.15 & took the 1.35 train for Boston arriving at 4.15 & taking a Fairbury train out to Cambridge.

C. & I called at Walter Deane's at 7.45 to see his brother Charlie who had just arrived from Chicago.

Wea. SAT. AUG. 25, 1906 Ther.

Brilliantly clear with light N. E. wind. Cool at morning & evening, warm at midday.

To Concord by 8.34 train. C. drove me to the station & James met me at Concord. I took Adams Tolman to the farm, to inspect the various buildings with a view of increasing work on them. Walked to cabin & dined there. James & Charlie came down at 11 P.M. We worked until 5 clearing out brush & pruning trees along the river path.

Wea. SUNDAY 26 Ther.

Cloudy, clearing about 4 P.M. Warm with light S. W. winds.

Spent a.m. with Yorlush working about the cabins. Walked to the farm in P.M. & picked a basket of peaches there, the first crop from my young trees. At the farm I heard a Wood Pewee & saw a flock of 22 Bluebirds passing overhead. But could not identify either. At Ball's Hill saw a small mixed flock (1 D. Linn. 5 D. virens, 1 Phoebe & 2 L. Chickadees) in a.m. Out evening song (72 Barn Swallows, a few Swifts, a few Goldfinches & a few Nuthatches. I heard 2 Sharp-shinned Hawks & a Maryland Yellowthroat.

Wea. MON. AUG. 27, 1906 Ther.

Cloudy most of day with light shower
very sultry with strong moist S. W. wind

Gilbert & I returned to Cambridge
by 8.13 A.M. train. I spent the
day in my museum writing letters &
files. Collo Hained & took tea with C. &
me on the back porch.

Wea. TUESDAY 28 Ther.

Brilliantly clear with cool N. W. wind.

To Museum Group. Left at 10 A.M.
C. drove me down with Betty.
I worked all day on the Bygone
birds. Parley helping me. Got
home at 6 P.M., very tired.

Wea. WED. AUG. 29, 1906 Ther.

Clear & warmer with fresh S. W. wind.

To Boston at 11 A.M. Spent
about an hour at our office, called
on Dimick & Dr. Field, both of whom
were out, got four tickets at Globe
Theatre for Friday matinee, & reached
Athletic Club at 4 P.M. dining there
at 6.30. Got home at 7.30. John N.
Hardy Jr. called at 8 P.M. & I spent evening.
He brought a young white-fronted Green Heron
at Abington Mass. which he gave me.

Wea. THURSDAY 30 Ther.

Clear & warmer still with light
southerly breeze.

Spent day in house & museum.
With Gilbert's help packed two trunks
& put away my remaining drawers things.
C. feels unable to run the house this
winter & am on being it indefinitely.
Her favorite maid Iola is to be married
in October & she has no one on whom
she can rely for help in housekeeping.
Dr. Field called at 3 P.M. & stayed
tea & dinner.

Cambridge - Lexington

Wea. FRI. AUG. 31, 1906 Ther.

Brilliantly clear & pleasantly cool.

Spent A.M. in Museum writing letters. To Boston at noon. Called on office. Met C., E. R. S. and Miss West at Adams House & lunch there. We all went to the Globe Theater at 2 P.M. to see a light breezy evening play. The ladies were dining out with Betty & the girls. I called at the ladies office & got home at 6. C. had dinner in town evening.

Wea. SAT. SEPT. 1 Ther.

Brilliantly clear with strong cold N.W. wind. Very cool at eve. Ther 50°

Spent most of day in house & Museum putting things in order. Drove to Mrs. Camp. Left at 11.15 and worked about an hour on Byron's birds. I have practically finished with them. To Lexington at 5.30 P.M. to spend night with Foxton in his new house. We sat up late talking. A big migration of Woodpeckers noted at Concord by Foxton.

Lexington - Concord.

Wea. SUN. SEPT. 2, 1906 Ther.

Clear & warmer with S.W. wind.

Left Foxton's at 8.15 and took electric cars to Concord. Met H.W. Henshaw there on arrival 10 A.M. James drove us to Ball's Hill where we are to spend about a week at the cabin. He sat around most of P.M. Only a few visitors. One of them Copeland has come & got into. I gave him a charge of collections.

Wea. MONDAY 3 Ther.

Forenoon rainy & warm with strong S.W. wind. Clearing in P.M. with N.W. wind.

A feverish cold laid me low to day. I spent the forenoon in bed. In the afternoon I felt better & took a short walk with Henry. A few birds about the cabin I identified a Black-throated Green a Red-eye & Chickadee. A Whippoorwill sang rather loud at evening giving out 20 succession notes.

Concord.

Wea. TUES. SEPT. 4, 1906 Ther.

Brilliantly clear with strong cold N. W. wind.

Henry & I walked to the farm in the forenoon. Had a feast of peaches there. There is a splendid crop of ripe melons, also. Very few birds there, a small flock on Ball's Hill including a Kingbird, Black & White Cuckoo & Red eye.

Henry & I walked to Blakeman woods in P.M. We talked most of evening.

Wea. WEDNESDAY 5 Ther.

Brilliantly clear with light easterly & westerly winds.

Henry & I walked to the farm in A.M., to the Blakeman woods in P.M. Found deer tracks everywhere, those of a large buck about Ball's Hill. Saw a very tame & Cope May Warbler in Birch Field, near the henhouse, at 10 A.M.

Flock of 50+ Chipping Swifts flying over Holden Meadow 8 A.M. Flock of about 125 Swallows, chiefly House, whirling over river at camp. Not many Woodpeckers about.

Concord - New York - Englewood.

Wea. THUR. SEPT. 6, 1906 Ther.

Brilliantly clear & pleasantly warm with strong W. wind.

Faxon came up by morning train to spend the day. With Henry & me. We walked to farm in A.M. wishing to dine at cabin.

Saw only a few birds. Flocked in cabin after dinner & then walked to stream with F. who left 4.24 train for home.

Paula Benson started a deer near Birch & G. W. We saw tracks everywhere.

Wea. FRIDAY 7 Ther.

Cloudless with light W. wind. Much warmer.

Left W. Bedford at 6.39. Took 8 A.M. train from Boston for New York arriving at 1 P.M. To Dutcher's office at 2 P.M. to attend meeting Nat. Aud. Soc. to decide matters connected with Wilcox legacy. Ten Directors present - Allen, Dickson, Chesmon, Stairs, Beauford, Palmer, Pearson, Mrs. Wright, & myself. Adjourned about 4.30, & went to Englewood with Chapman for the night. Saw 27 Short-tailed Jays flying over the Hudson. Mr. & Mrs. Page dined with us at 7 P.M.

Henry does very numerous & very

Englewood - Concord.

Wea. SAT. SEPT. 8, 1906 Ther.

Brilliantly clear with light easterly winds

Left Englewood at 8.10 A.M. Crossing
ferry saw 6 Short-tailed Juncos flying
over Hudson. Took 10 A.M. train for
Boston arriving at 3 P.M. Crossed
city & having an hour to spare dropped
in at Sol. North's rum station & saw a
number of horses sold at auction. It was
very interesting. Took 4.47 train for W. Act
& found out well at Ball's Hill. Saw
Henshaw's Sparrows yesterday there, with Henry
& Forbush sawed them both up with the Anaseta
Wea. SUNDAY 9 Ther.

Brilliantly clear & delightfully warm. Wind W.
Henry & I walked to the farm in A.M.
In P.M. we paddled in single canoes up
river as far as Hunt's Pond. Everywhere
we went we saw lots of birds. The
country was alive with them, chiefly ^{my kind} ~~my kind~~
Warblers, almost all of which were Black-polls.
Found fully 50 in Birch Field. With them
were one adult Bay-breast & a very yellow
Orange-crown, both seen clearly by us both.
I also saw & pos. identified a Crow.
Warbler, was the common in early P.M.
Heavy flight of wing Warblers starting 8-10 P.M.

Concord.

Wea. MON. SEPT. 10, 1906 Ther.

Brilliantly clear with cool E. wind.

Spent A.M. working with James &
Charlie cutting trees & branches along road
from Pine Hill to Cobin. Saw only a
few birds. Henry went to farm where
he found over fifty Warblers in Birch
field. Most of them were Black-polls
among which he found & positively identified
an Orange-crown. He also saw a Black-thr.
Blue. We sailed on river in P.M. & saw
3 Wood Ducks flying past within 100 yds.
I walked to farm on 5 P.M. started 5 Postcards
in Birch field & a Woodcock behind Birch Hill
Wea. TUESDAY 11 Ther.

Morning at first foggy, afterwards cloudy.
afternoon clear & warm with S.W. wind.

We moved up to the farm in
the early forenoon. After dinner I
went to work with the men clearing
out the paths in Birch field. Henry
joined me there later & we went
through Samson's wood road to
Green field. Found very few birds
anywhere. The big flocks of the 9th
& 10th were evidently passed on.
Spent most of evening talking.

Concord.

Wea.

WED. SEPT. 12, 1906

Ther.

A. M., cloudy; P. M. partly clear, very warm & sultry with S. W. wind. Henry & I walked to Birch Field after breakfast. Many Warblers in Poplar Rock woods but none in field. Returning we next took a good drive into Carlisle. About noon as we were in the flower garden, we heard a Golden Plover where the house is. Worked with the man from 2-4:30 P. M. in Poplar Rock woods. At 5 P. M. Henry & I went to the Berry pasture where we found 2 Deer, one doe & a this year's fawn. They crossed the field & followed our chimney up to the house, finally going off into the pasture field.

Wea.

THURSDAY 13

Ther.

Forenoon cloudy; afternoon sunny. Very warm & humid.

Henry & I went to Birch Field just after breakfast. Found fully 100 Warblers there. They were nearly all Black-polls among which we detected, however, 2 Black & White Creepers, 2 Redstarts, an Usnea Warbler, several Red eyes & a Water Thrush. At 10 A. M. we started for a drive going to Carlisle & back by Westmore road. Went to town in P. M. Purdie arrived at 6 P. M. & spent the night.

Concord - Boston - Glendale.

Wea.

FRI. SEPT. 14, 1906

Ther.

Brilliantly clear with strong, cool N. W. wind.

Henry Henshaw & Henry Purdie went to the Berry Pasture just after breakfast & saw there a pair of ♂ & ♀ Comm. Warblers. When they returned I went with them to Birch Field where we found a flock of about 75 Black-polls & with them a Redstart, Usnea W., Chestnut-sided Warbler & a Water Thrush. I spent most of day writing letters. The two Henrys took a drive in P. M. & Purdie went back to Boston. We have been working in ripe patches & meadows for the past two weeks.

Wea.

SATURDAY 15

Ther.

Brilliantly clear with strong cool N. W. wind.

Henry, Gilbert & I left Concord this morning by 8:56 train. I went to Boston & took 10:15 train for Glendale. Dan & Mrs. French met me at the station there. Found Mr. & Mrs. Bush at the house. Dan & I took a walk before supper, visiting the hill behind the Warrens house & the ever changing pasture at the S. base of the mountain.

Glendale

Wea.

SUN. SEPT. 16, 1906

Ther.

A brilliantly clear & very cool day with fresh N.W. wind.

We all went on a long walk together in forenoon, the Frenches (including Margaret), the Bushes & I, taking the direct wood road to Hagar's Pond, then ascending it & returning via the Knight's place.

In late P.M. Dan & I went to the pine pasture across the road when we worked about until nearly dark.

Wea.

MONDAY 17

Ther.

Clear & warmer with light S.W. wind.

Spent most of day in the pine pasture with James cutting over wood roads & vales. Dan came over several times to inspect our work. There were many fresh birds about. Saw a Black-burnian, 2 Anna Warblers & many D. Vireos. Cedar birds numerous in woods. Canada Thrushes whirring. A Hyla piping gaily as in Spring about 2 A.M. Mrs. Bougman also

Glendale

Wea.

TUES. SEPT. 18, 1906

Ther.

80°

Sunny but heavy, very warm with light S.W. wind.

Spent A.M. with James & Michael cutting down trees in pine pasture. Dan & I walked to the hill pasture in late P.M. In the evening we all sat on the steps of the studio. Dan had illuminated the garden with paper lanterns. It was a perfect night with more brilliant stars. Warblers chirping in quantity from 8 to 10 P.M. at Phoenix in front long near the house from 6-8 A.M. Song Sparrows singing with Hyla calling copiously in woods. Chirps day & night - the autumn calling.

Wea.

WEDNESDAY 19

Ther.

Sunny but densely heavy. Another very warm day. Wind S.W.

Spent most of forenoon reading & writing letters. Dan gave me a fresh letter for the pocket portrait of me which he gives to & about. Mrs. French & I went to Stockbridge with him in P.M. to see him off on his trip to New York whether he goes to attend a meeting of Jesters etc. Tomorrow to - tomorrow.

Glendale - Boston,

Wea. THUR. SEPT. 20, 1906 Ther.

Forenoon sunny, afternoon cloudy with light shower. Heavy shower 8-10 P.M. Whole day & night uncomfortably warm.

Spent forenoon in the studio & garden. Also walked to the herb pasture. In P.M. called on Newton Mollinotow. He received us very pleasantly & we had a good talk. Met Mr. Knight leading horse to the track to water. It is very dry.

Wea. FRIDAY 21 Ther.

Clear and very warm with light S.W. wind.

Left Glendale at 10.20. Mr. Finch drove to station with us. We saw a Field Hawk soaring over the river. Went on train at Pittsford & took 12.15 train for Boston arriving at 4.45. Went to Athletic Club for tea. Mentions were made there. The news he gave me of Mr. Board is not encouraging. It decides us to go to Wolfboro to -

Boston - Cambridge - Wolfboro

Wea. SAT. SEPT. 22, 1906 Ther.

Cloudy with E. wind. Much cooler. Light steady rain from 10 a.m. to late into the night.

To Cambridge at 9 a.m. Spent an hour with C. in her sewing room. She looks tired & ill but is brain & cheerful. Ida has been behaving badly. She was tricked while C. was at Northampton. We went to Boston at 11 a.m. Called at office & took 3.30 train for Wolfboro arriving at 8 P.M. Went down to Mr. Board's & found Molly there.

Wea. SUNDAY 23 Ther.

Brilliantly clear with strong N.W. wind. Warm in sun, cool in shade.

Spent most of forenoon rambling about the Beaconbury grounds leaving the work of the cutting & begins to - harvest. In P.M. took a drive with Mr. Board. We went up past my grandfather's place & beyond to Rustler Pond. Mr. Board seems well & enjoys driving but he cannot walk, worth. His heart they say is in a bad way.

Wolfboro.

Wea.

MON. SEPT. 24, 1906

Ther.

Brilliantly clear with strong N. W. wind. Much cooler

The Trustees voted last June to entrust to me the thinning & removal of a number of trees in Academy grounds. I began the work this morning with the assistance of two Canadian wood choppers. We cut down about fifty trees between the Academy & the Lake. Mr. Bond was with me in his buggy much of the time. MacLinton arrived this evening at 8 o'clock.

Wea.

TUESDAY 25

Ther.

Clear with light W. wind. Warm but with a white frost last night

MacLinton & I spent nearly the whole day out of doors superintending the work of the Canadians. About fifty more trees were felled. We opened a wide vista through the belt of Hawthorn on the Lake shore. Mr. Bond's men & horses hauled the fallen trees to a place of ploughed land. Many birds about, a flock of Geese & one of Purple Finches

Wolfboro - Boston

Wea.

WED. SEPT. 26, 1906

Ther.

Brilliantly clear with strong S. W. wind much warmer

Spent day working with the men in the Academy grounds. We cut down a few more trees and trimmed and burnt a lot of brush. MacLinton took the 11.15 boat to Boston. Mr. Bond was with me most of the afternoon in his buggy. Only a few birds to-day. A ^{few} ~~blacked~~ in full song for they are here in early spring

Wea.

THURSDAY 27

Ther.

Cloudy with heavy rain in forenoon. Warm with S. W. wind.

Spent two hours at the Academy this morning. Attended the opening exercises & afterwards visited every class room. The school seems to be working well.

Took 11.20 train for Boston arriving at 3.30. Went to office & saw MacLinton; kept to Athletic Club for the night. After dinner called on the Melvins at ~~Hotel~~ Copley Square Hotel & spent a pleasant evening with them.

Boston - Cambridge - Concord,

Wea.

FRI. SEPT. 28, 1906

Ther.

Brilliantly clear with fresh N. W. to N. E. wind. Cooler.

Breakfast at Athletic C. Shopping on Washington St. 8.30 - 11 a.m. At our office 11 a.m. to 3 P.M. Called a meeting of Trustees for noon to-day but Grandeur did not appear. Explained situation at Wolfboro to Arthur E. We decided to let things drift through this term of school. To Cambridge at 3 P.M. Spent rest of afternoon & the evening with C. Returned to Boston at 9 P.M. & spent night at Athletic Club. Called at Abbottsford at 10 P.M. & took reference of rooms for November.

Wea.

SATURDAY 29

Ther.

Forenoon sunny; afternoon cloudy. Warm with fresh S. W. wind.

Breakfast at Athletic Club 7.30 a.m. To Cambridge at 9 a.m. C was at Mrs. Seaver's looking at rooms. After she returned we had a talk about the winter. She still hopes to open the house but can get no heads. I looked at the rooms. On my return met Ruthven Deane. He has been boarding in Cambridge a week or more. Lunched at Deane's Cafe. Took 2.05 train to W. Bedford & spent night at Balls Hill with Forester.

Wea.

SUN. SEPT. 30, 1906

Ther.

A deluge of rain with distant thunder just before & a fine day break. Forenoon cloudy. Afternoon sunny. Cool at evening.

Spent most of A.M. in Cabin talking with James, & reading Atlas. Walked to farm in P.M. via Peter's place, returning via Birch Field where I found a flock of fully 100 Black jacks, a few Yellow throats & several Golden C. Kinglets. Heard a Golden Plover call a dozen times or more about 8 a.m. It seemed to be flying South. Forester heard another about 2 P.M. But with autumn already set. It is very late.

Wea.

MON. OCT. 1

Ther.

32° min

Brilliantly clear with light variable winds. Heavy white frost last night. Drier for this morn.

Spent day at Balls Hill overseeing the work of six men. James & Charlie cutting down trees, Karl Ellsund & Elsen making an inclined plank walk to my cabin, Forester doing up's & down's things, Pat sawing wood. Gilbert arrived at 6 P.M. bringing Barry from Waverston. I took a walk to Pine Point & Pine Ridge at sunset. Saw a Duck which I think was a Wood Duck flying down near us late P.M. Sooty Tern in full song

Wea.

TUES. OCT. 2, 1906

Ther.

Foggy in early morn. Remainder of day brilliantly clear. Warm at noon. Calm most of day with E. wind in late P.M.

Spent day at Ball's Hill working with the men. The carpenters nearly finished the new plank walk to my cabin, Jones & Chasler cut down some more trees. Pat saved wood. I went nearly to Davis Hill in forenoon & to farm in late afternoon. The country swarmed about with birds largely Black-bills.

Wea.

WEDNESDAY 3

Ther.

Clear & warm with light S. E. wind. Dense fog in early morning.

Spent day at Ball's Hill working with my men. We cut down more trees, burned brush etc. The carpenters finished the new approach to my cabin before us & then colored a window on the Chestnut cabin.

I walked to Birch Meadow & Davis Hill at evening. A good many birds about in day. Few Black-bills from them yesterday.

Wea.

THUR. OCT. 4, 1906

Ther.

Brilliantly clear with light S. E. wind. Very warm for the season. Foggy in early morn. Spent A.M. at Ball's Hill working with the men. We cleared up most of the letter mail during the past few days. Went to the farm with Karl in P.M. We visited the Pullman place & planned the shed to be built there. I returned alone via Davis Swamp & Hill taking plenty of time. The woods were alive with Gray Squirrels & there were plenty of birds, also. Saw a Jay with coloring coming from a good deal of autumn coloring now.

Wea.

FRIDAY 5

Ther.

Clear & warm with light S. W. wind. Densely foggy at morning & evening.

To Boston by 8.13 train. Called at office & signed our quarterly estate cheques. Reached Cambridge 10.15 A.M. James drove down & got a load of old shingles. After being home I called at my new tenant Nelson's. Saw his sister. Then called on Mrs. R. Deane at Mrs. Deane's. To Washington Court at 12.30. Lunched there with G. & home about afternoon. Henry Henshaw & Jim Bejner called. The latter asked me to lunch with him. I refused. G. & I decided to spend winter at Mrs. Sanderson's. I missed last time by W. Beech, it went by electric along at 8 P.M. it was foggy & very dark when

Wea.

WED. OCT. 10, 1906

Ther.

Cloudy, calm, warm, clearing at sunset.

Everything drenched this morning by the violent rain last night. The Deans & I got in the horse cart at 9 a.m. when we started for the farm. We came out for a few minutes & on board a Blonnet, a Phoebe & a Flicker singing from the house. At 11 a.m. we started for Bon's Hill. We got there at noon & dined in the cabin. Rained down to Black Island in P.M. The Deans took 4.24 train to Cambridge. I walked to farm after the horse cart. I walked to farm after the horse cart. I walked to farm after the horse cart.

Wea.

THURSDAY 11

Ther.

Partly cloudy, forenoon warm with violent S.W. wind, afternoon cool with W. wind.

Spent day at Tillet's place grading about the new shed and cutting down a number of trees in the woods where the Red pines grow. Pierce & his men finished their work on the big dam. They are finishing Gyping holes near in some places on the farm. They have discovered two in Puffin Rock woods & one in front of the cabin.

Wea.

FRI. OCT. 12, 1906

Ther.

Brilliantly clear, with light N.W. wind, heavy white frost this morning. Middle of day deliciously warm.

Spent day at farm, working most of time in Berry Pasture. Four men were hauling dirt as they enlarged the pond on the west side. I had our water men cutting down trees. Juvons & Fairbank were shingling the new shed at Tillet's place. We have called about 4 P.M. The walk from V to the cabin on the way & carrying loads, delightful. The autumn colours very rich in places.

Wea.

SATURDAY 13

Ther.

24°

Brilliantly clear with light N.W. wind. Water & ground frozen at daybreak. Warm in middle of day.

Spent day at farm working in the Berry pasture. Cut out a number of paths & thinned the trees in places. Then a few of the men worked on the western side of the pond finishing it in night. Fairbank & Juvons were shingling the new shed. Birds numerous, Field Sparrows, Buntings & Field Sparrows noted.

Wea.

SUN. OCT. 14, 1906

Ther.
28°

Brilliantly clear with light E. wind

Spent forenoon working about the cabin with Forbush. We put away the canoes and took off most of the screens. Walked to farm in P.M. Called at Lawrence's to see about some pine boards & at Mr. Harris, Canopy Goods in the twilight via Holder's Mill. Most of the Swamp wrens have shed their leaves the first two days. The calls show little color yet.

Wea.

MONDAY 15

Ther.
32 min

Sunny but hazy. Warm.

Spent forenoon at Ball's Hill working with Forbush at odd jobs. Pat set out a lot of ferns about the cause & boat pits. Gilbert went to Cambridge returning at 3.30 P.M.

At 2 P.M. James drove down and took me and all my things to the farm where I am to spend the remainder of the month.

Miss Sarah White came down at 3 P.M. to make arrangements for the Bee to come here on the 19th.

Wea.

TUES. OCT. 16, 1906

Ther.

Partly cloudy, Strong N.E. wind.

Spent day at farm working with the men. We cleared up the grounds about the house in the forenoon and did some cutting among the red pines near the Retcher place, in the afternoon. Very few birds seen & nothing of interest.

Wea.

WEDNESDAY 17

Ther.

Cloudy with strong N.E. wind

Spent forenoon in Birch Field working with fire of my men. We cut down a lot of trees and built up a huge brush pile for future burning.

In the afternoon I went to Ball's Hill with James & Charley. We cut the lower branches off the trees along the road by the river & on Pine Hill. Saw very few birds.

Wea.

THUR. OCT. 18, 1906

Ther.

Cloudy with strong N. E. wind.

Spent day at farm working with the men clearing up the grounds about the house in preparation for the coming of 'C' Bee to-morrow. No less than twenty-six of the members have "accepted". Barbara came from Boston this morning to help Gilbert. Only a few birds seen among them a large flock of Pine Siskins.

Wea.

FRIDAY 19

Ther.

Sunny most of the day with light E. wind. Very warm. Few cicadas chirping merrily at evening.

The Bee came from Cambridge to-day 20 of them including C. who arrived in advance of the rest & whom I met at Concord at 9.45 & drove down. All the others came in the barge. We had lunch at 1 P.M. & went to the cabin at 2.30 all went 4 or 5 walking through the woods & came back early with Miss Allyn

Wea.

SAT. OCT. 20, 1906

Ther.

Cloudy with N. E. wind. Heavy rain in afternoon & evening.

Spent forenoon working with the men near the barn & about the house transplanting things & clearing up debris. In the afternoon I had a fire in the wood shed & did some work there. Saw very few birds & nothing whatever of any interest. The oaks are beginning to turn & some of the white oaks are very nicely colored now.

Wea.

SUNDAY 21

Ther.

Cloudy with strong cool N. E. wind. A gloomy, depressing day.

Called at the Hoopes' just after breakfast. Then returned to the house to find J. C. Melvin & W. Baker who had come from Concord in the automobile. They stayed until noon when I went to Bank Field. Spent P.M. on the Barrett Run making a new wood road to the Rabbit place & Glassy Run. Saw 91 Pine Siskins in Bank Field. Heard W. of the Song whistling around in P.M.

Concord.

Wea.

MON. OCT. 22, 1906

Ther.

Cloudy with light N.E. wind.
Slightly warmer. A gloomy day.

Worked all day in Pulpit Rock
woods with T. Webb, James, Charley,
Pat, Benson & his hired man.
We cut down a lot of trees to
open out vistas & woodpaths.

Saw very few birds. The elms
& oaks are superbly colored
now or there very best I think.

Wea.

TUESDAY 23

Ther.

Sunny most of day & very warm
with light S.W. wind. Tree Crickets
in full & rather rapid cry at evening.
Oak, hickory & elm foliage about
at its highest autumn coloring.

Spent day in Pulpit Rock
woods working with the men.
We cut down a lot of trees.
Carl & Phelan came from
Cambridge this morning the former
to plant my bulbs, the latter
to plan a bath room here.

Wea.

WED. OCT. 24, 1906

Ther.

A.M. brilliantly clear. P.M. partly
cloudy. Wind N. to N.E. Cooler.

Spent day shooting with J. C. Melvin
in Carlisle. His automobile called for me
at 8 A.M. & brought me back to farm
about 5 P.M. We beat a number of coveys
including that near the haunted house &
Wadley's Run. In one nest to me Melvin
flushed & killed a woodcock. This was the
only one I found all day. We started 8 Partridges
& 7 Juncos. In late P.M. we took on
Mr. Robbins, & his daughter & went first
to the Colwell place & next to a meadow
near Robbins' mill where I saw my first
clearing fern a fine bed of it. On leaving
the farm found Pardie who spent the night.

Wea.

THURSDAY 25

Ther.

A.M. cloudy with strong S.E. to S.W.
wind & very heavy rain. P.M.
clear or clearing with W. wind. Very warm
all day.

Spent A.M. in house & wood shed.
Pardie with her work of lines.
In P.M. watched the men digging
& throwing a little cellar for the
effusion I am to build behind the
kitchen & wood shed. They also worked
on a new drain & cess pool. Pardie
left me at 4 P.M. to go back to
Boston.

Wea.

FRI. OCT. 26, 1906

Ther.

Brilliantly clear with light W. wind.
Warm at midday, cool at evening.

Spent a.m. at farmhouse. The
men finished the foundation wall of
the extension to the shed & the
carpenters had the floor laid by night.

In P.M. I went to Birch Field
with five men and opened a road
through from there to Bensen's setting
up two lines for traps. Saw a
number of birds about the fence
but nothing of much interest.

Wea.

SATURDAY 27

Ther.

Partly cloudy Wind E. in a.m., S.W.
in P.M. Very warm. Free Cuckoos
chirping everywhere at evening.

Drove to Concord this morning
& met E. R. S. at the house. She
consulted me about cutting down &
planting trees. I drove her to the
Emersons' & then went to Angus Hill
to order some plots. Got back at noon.
Spent P.M. in Puffin Rock woods
with Charles & Bensen & his man.
We cut down many trees & explored
a wood road to Birch Field.

Wea.

SUN. OCT. 28, 1906

Ther.

Brilliantly clear with strong W. wind.
Just pleasantly cool. A perfect day.

Spent forenoon alone rambling about
in Birch Field & Prescott's pines. Went
over the farm with James just after
dinner. Later walked to Ball's Hill
where I found Farley & Bailey of
the Gypsy North Com. with Forbes.
I sat talking with them for half an
hour & then walked home in the
twilight. The oak leaves falling to-day.
Maples & birches already bare.

Wea.

MONDAY 29

Ther.

Clear & cool with strong N.W. wind.
To Cambridge by 8.13 train which
Gilbert & I took at West Bedford.
The walk to Ball's Hill was delightful
in the crisp morning air. Met C.
at the house where with Gilbert's help
I packed up all my clothes & things
to go to Mrs. Sudduth's. It was sad work.
Went to Boston at noon. Found
Loandee at our office. Called at 2.16
Washington St. where I saw Dimick &
Kearball. Came back to Concord by 4.47
train Stopping some at Ball's Hill
and taking the train

Wea. TUES. OCT. 30, 1906 Ther.

Cloudy with light rain in P.M.
Little ice on road. Warm.

Spent day at Ball's Hill cutting
down my entire force of men.
The carpenter's blocked up Gilbert's
cabin which is badly decayed
in places. The rest of us worked
at various things such as putting
away the boots for the winter
& cleaning up generally. A Grebe
was seen on the lake off the
cabin in the evening.

Wea WEDNESDAY 31 Ther.

Cloudy with strong N.E. wind
and heavy but intermittent rain.

Most of the men worked
in door in the old farm house
rearranging the wood shed, making
a staircase in the back hall etc.
Benson & Post burned a great
quantity of brush in Birch Field
& Prescott's pens. I went to
both places in the forenoon finding
Birch Field also with birds
Yellow-rumps, Robins, Blue Jays

Concord - Cambridge.

Wea. THUR. NOV. 1, 1906 Ther.

Clear & cold with high N.W. wind.

Spent most of day at farm house
closing up for the winter. Forbush
helped most efficiently. He & I took
a hurried walk to Birch Field in the
early forenoon. He, Gilbert & I were
down to Concord in P.M. Gilbert
& "Bery" I went to Cambridge by
4.20 train. I reached Mrs. Scudder's
about 5.30 & found C. awaiting me there
in the rooms on Main Street for the winter.

Wea. FRIDAY 2 Ther.

Cloudy & cold with strong N.E.
Snowing most of forenoon big flakes
falling thickly but melting as fast as
they reached the ground.

Spent day in forenoon writing
letters & checks for unpaid bills.
Walter with me. Gilbert took
Bery to Concord but brought him
back again at night as the
spending cannot keep him.
Our little Canary "David" died
of a chill this morning.

Wea.

SAT. NOV. 3, 1906

Ther.

Clear & pleasantly warm with light N. wind.

Spent day in Museum writing letters & paying bills.

Saw White-throated Sparrows in the Garden, one of them dying feebly. The grass is as green as in June.

Wea.

SUNDAY 4

Ther.

Brilliantly clear with brisk N. W. wind. Cooler.

Spent most of day at Museum writing letters.

The Garden alive with birds. I identified the following: Chickadee, 4; Golden-crowned Kinglet 2; Brown Creeper, 1; White-throated Sparrow, about a dozen; Song Sparrow, 1; Fox Sparrow 1, Tree Sparrow, 2; Junco, 3. The Sparrows were together in a mixed flock, among the weeds at the base of the Garden.

Wea.

MON. NOV. 5, 1906

Ther.

Brilliantly clear with light N. W. wind. Shallow frosts frozen over at sunrise but mid-day deliciously warm. Saw a Clouded Sulphur Butterfly, a small Dragon Fly and heard Field Crickets & a Grasshopper Thrilling.

To Concord by 8.34 train with Gilbert Phelan the plumber & his son. He drove to farm where the men began work on the new bath room. Spent most of day over my this work but got into Rabbit Hill woods in P. M. Saw very few birds. Returned to Concord by 5.27 train. Attended Hunt Club meeting this evening.

Wea.

TUESDAY 6

Ther.

Brilliantly clear with light N. W. winds.

Voted the Straight Republican ticket at 9 A. M. Spent A. M. in Museum writing letters etc. Purdie has just given me two sets nests & eggs that of Olive-backed Flycatcher. Set taken by him at Riverside in 1875 & a Golden-winged Woodpecker nest 4 eggs taken in W. Newton by Cooper many years ago.

Wea.

WED. NOV. 7, 1906

Ther.

Brilliantly clear with cold N.W. wind.

C. & I took the 9 a.m. train for Portland arriving at 12.20 & meeting Dr. Gehring by appointment at the Lafayette Hotel. While he was consulting with C. after lunch I called on Mr. E. N. Lord at his sister's Mrs. Heesom's 106 Pine St. He was sitting up in his wicker but he looked very ill. I also called at Hinds's Store & bought two young woodcock & a pair of other birds. Dr. G. returned to Ball's by 7 P.M. Lord.

Wea.

THURSDAY 8

Ther.

Clear & warm with light N. wind

C. & I breakfasted at 7.30 & took the 9 a.m. train back to Boston arriving at 12.45. She went to lunch with some friends & I came over to the Scudder's where I lunched with Miss Thompson.

To Boston at 5 P.M. to attend. Con. meeting till 1 some time. So at Copley Square Hotel. This followed by a dinner at 7 P.M. about 15 numbers present including four new. Got home at 11.30 P.M.

Cambridge - Washington.

Wea.

FRI. NOV. 9, 1906

Ther.

Cloudy with light easterly winds. Warm. Spent A.M. packing birds & clothes for trip to Washington. Went in train at noon to attend J. W. Huntington's at 1 P.M. Arthur & I decided to go to the coast. The latter, getting surprised in hotel & sports. We decided to go. We had a good vacation with fish & to change our U.S. funds for Mass. Bonds of the amount of our beneficence can be obtained. Got back at 4 P.M. & spent 2 hours in evening.

Wea.

SATURDAY 10

Ther.

Most of forenoon cloudy, of afternoon clear.

Took 9 a.m. train for Washington D.C. Was joined at New Haven by Sage and his daughter Harriet, a bright pretty girl of about nineteen. They did much to relieve the tedium of the journey for me. I saw few birds several Bluebirds & Meadow Larks in Conn. being the most noteworthy. No Hawks & only scattering Crows observed. We reached Washington at 10.15 P.M. My wife & I were met at station. I went directly to Mrs. Bolles's

Washington, D.C.

Wea. SUN. NOV. 11, 1906 Ther.

Cloudy with heavy rain in forenoon
the sky clearing at sunset. Wind N.; Cool.

Spent most of A. M. unpacking &
putting away my clothes and talking
with Mrs. Batchelder of Vermont who
is to spend the week at Mrs. Nathan's.
I am surprised at her intimate knowledge
of the ornithology & botany of Vermont.
Called at the Messiahs' at noon & stayed
an hour. Saw Dr. & Mrs. M., Dorothy, Sage
& Dr. & Mrs. Allen; also Fisher. Spent P. M.
with Henry Henshaw at the Orleans.

Wea. MONDAY 12 Ther.

Clear & cool with high N. W. wind.

Took short walk after breakfast.
Attended Council Meeting at Merriam's
10 a. m. to 4 P. M. Members present
were Allen, Batchelder, Brewster, Dutcher,
R. Daane, Dwight, D. G. Elliot, Fisher, Lucas,
Merriam, Nelson, Richmond, Stone, Sage.
I sat next Dwight & Elliot. Meeting harmonious
as a whole but some feeling shown between Stone
& Allen over discussion of Elimination versus
one species rule in report of Code Com.
Business meeting of Fellows at the Palmer
8-11 P. M. Present Allen, Batchelder, Brewster,
Bishop, Chapman, Dutcher, Daane, Elliot, Dwight,
Lucas, Cooke, Fisher, Merriam (absent), Batchelder,
Nelson, Richmond, Henshaw, Palmer, Stone, Sage, Stinson.

Washington, D.C.

Wea. TUES. NOV. 13, 1906 Ther.

Clear and cool with fresh N. W. wind.
Spent day at Nat. Mus. attending both
morning & afternoon session A. O. U.
Finlay, on Colo. Condor, excited unusual
interest & enthusiasm. His pictures have never
been equaled & his paper was well written & read.
The audience at lunch exceeded 100 persons &
nearly that number were at the lunch.

The A. O. U. dinner came off this evening at 7
o'clock at Riggs House. About 80 present. I took
in Miss Freeman of Boston. Merriam addressed
us on Indian Myths & shall stay an hour.
We got home about 11.

Wea. WEDNESDAY 14 Ther.

Sunny with clouds gathering in P. M.
Very chilly with high N. W. wind.

Spent most of day at the meeting
in Nat. Mus. The large lecture room
was filled to its full seating capacity.
Heard the sequel to Finlay's Condor
Story, an account by Bailey of Phala,
illustrated by beautiful slides, & a foreword
of high notes, & a fine talk by Nelson
on his experience in down Colorado.
Spent part of P. M. in Smithsonian gallery
with Richmond, Stone, Elliot & Fleming.
Henry Henshaw came to see me in
the evening staying until 10.30. Dr. Palmer
also called, as Mrs. Davenport, however.

Washington, D.C.

Wea. THUR. NOV. 15, 1906 Ther.

Cloudy - with heavy rain alternating with damp show. a gloomy chilly day.

The attendance at the meeting fell off to-day but the faithful were mostly there. There were fewer lantern slides & more beautiful papers & discussions. I spent part of P.M. in Smithsonian gallery with Richmond & Stann. Council meeting at Portner 8-11.30 P.M. Majority report of Code Com. discussed & finally passed by 6 to 5 vote. Exciting meeting & strongly felt. Dr. Stebbins, Stejneger & Gies present by invitation. Also the whole Code Com.

Wea. FRIDAY 16 Ther.

Brilliantly clear with light N.W. wind. The warmest & pleasantest day for a week or more. The A.O.U. members had been invited to visit the Island but the weather because forecast yesterday was unfavorable & the trip was abandoned last night.

We of the Nomenclature Committee had an all day meeting in Smith. Gallery. Allen Dwight, Richmond, Stann & W. B. Peckham. Merriam based in his resignation. (To 1906 Jan. 12.) was here. He certainly did not appear at the meeting. He is very late on the part of the Council last evening. The Committee had a good day's work. I spent the whole day at the Museum where I saw

Washington, D.C.

Wea. SAT. NOV. 17, 1906 Ther.

Cloudy

Spent day at Smithsonian where our Committee met in the Bird Gallery both morning & afternoon adjourning at 5 P.M. however, until next April. We did a very good day's work considering the absence of Merriam (who has resigned) and of Stann in the afternoon (he departed for Phila. just after lunch).

Wea. SUNDAY 18 Ther.

Cloudy & very warm. One or two light showers in morning & a succession of very heavy ones after dark this evening.

Spent forenoon in my room writing letters. Went to the Octavia after dinner and had a good long talk with Henry in his pretty apartments there. We called on the Baileys in the evening. Their house is furnished with rare taste & is full of beautiful things. Tivert & Ogden were calling then. Mrs. Bailey is looking old. Her hair is very gray. Heard Tice come for a night this evening - two more here. Peckham's house.

Washington - Cambridge.

Wea. MON. NOV. 19, 1906 Ther.

Cloudy & very warm.

Allen & Sage started for home this morning. I have decided to stay on a few days to identify down birds in the Smithsonian. I worked them all day with Rehnard. We investigated *Picoides* *torquatus* Bays which is unlike a food race & *Parus* *colinus* Bol. which is evidently the *Coel.* form of *gambelii*.

Henry Hubbard & J. W. Nelson called this evening about 9 P.M. a telegram came from C. saying that his brother Edward is "critically ill." I packed my trunk & got ready to go home.

Wea. TUESDAY 20 Ther.

Cloudy & mild.

Left Washington at 7.40 A.M. by the "Colonial Express" for Boston. I was the only passenger in two parlor cars, as far as Boston. Spent most of day reading & napping. Did not talk with anybody. The country is green from snow & ice all the way to Boston & the grass is still green in many of the fields. At New Haven received a telegram from C. saying that his brother Edward had died about 10 A.M. 5 days. Reached Boston at 8.30 P.M. & Mrs. Scudder here at 9.30. C. was at the Hayes & I could not see her.

Cambridge - Boston.

Wea. WED. NOV. 21, 1906 Ther.

Cloudy with light rain.

Walked down to the Hayes at 9 A.M. & saw C. She went in train at 9.30. I spent most of day in Museum writing letters & paying bills. Found C. at the Parker House at 5 P.M. We have taken rooms there for the remainder of our work.

Wea. THURSDAY 22 Ther.

Clear and warm

Came out to Cambridge at 10 A.M. & walked on Museum until 1.30 when I went to Mrs. Scudder's to lunch. Went in town at 3 P.M. and met George's brother Elliott at South Station at 4. We took a carriage to Parker House where they have rooms adjoining ours. Spent the evening in our parlor talking.

Boston.

Wea. FRI. NOV. 23, 1906 Ther.

Clear & cool with high N.W. wind.

The funeral services for Rev. E. Wood Ketchum were held in the Chapel on Forest Hill Cemetery at 11 a.m. C. & Mrs. Brewster, George & Estelle Ketchum, George & Bernice Johnson drove out in carriages. I went by train with Fiance Manning, Mary Gough & May Compton. Dr. Van de Water conducted the services. He gave a fine personal eulogy of Edward Ketchum. We got back to Parkers at 1 P.M. I called at office of one Estelle & Fiske & from Rev. Dr. in P.M.

Wea. SATURDAY 24 Ther.

Clear & cooler with high N.W. wind

In A.M. called at our office, on Mrs. Dimick 216 Huntington St. & on Fiske & Johnson at Sybil Kirk Commission. In P.M. attended illustrated lecture on the Rhine and Roman Temples with C. & E. R. S. Some of the lantern slides were very fine. After the lecture C. & I looked at carriages in the back streets & got back to our rooms at Parkers about dark. Parker dined with us then at 6.30 & spent the evening

Wea. SUN. NOV. 25, 1906 Ther.

Clear & cool with light W. wind.

C. & I spent entire day in our rooms in the Parker House. They front on Tremont Street. The parlor is large & very pleasant. We read aloud, talked & wrote letters. Will & Alvin Stone came at 3 P.M. & dined with us at 6.30. We all left together at 9 P.M. C. & I going out to Cambridge to resume our life at Mrs. Scudder's.

Wea. MONDAY 26 Ther.

Cloudy with fine drizzle of rain

Spent day in Museum writing letters etc.

Wea. TUES. NOV. 27, 1906 Ther.

Cloudy with raw N.E. wind & abundant incessant fine dense rain.

To Concord with Gilbert, Phelan & his plumber, by 8.34 train. James drove us all to farm. The new bath room is nearly finished & will be wholly ready to-morrow night. I spent most of day in house but went twice to the woods. In Barrell Run found 2 W. br. Nuthatches, a Cuckoo, 2 Golden Crests & a Creeper. A similar but different flock in Ruffin Road woods. Started a Parula sp. behind barn & 4 others together near the Barrell Spring. Sent 4 to Mrs. Redford. Bought 7 Honey Bee larvae (50¢) a fine lot of Goswold's but he does not see in town Sat. Saturday. Took 5.07 P.M. train home.

Wea. WEDNESDAY 28 Ther.

Cloudy & raw with fine rain changing to snow.

On reaching our place at 8.30 A.M. I found in the garden 4 Chickadees, a Cuckoo, a 6 W. br. Nuthatch & a 6 Red Bellied Nuthatch.

The Creeper sang twice, faintly. Spent forenoon writing letters & notes. Went in town at noon & met Mr. DeWick by appointment at Mrs. DeWick's school. We then had a long talk about New York & Gen. Proc. Ass. matters. He returned home all the afternoon & the ground was white all evening.

Wea. THUR. NOV. 29, 1906 Ther.

Brilliantly clear with heavy cold N.W. wind.

C. & I spent most of the day at the Abbotsford where we took a suite of rooms on the fifth floor and entertained George & Betty Jefferson, their children Ruth, Hamilton, Kenneth & Frances and Mr. Bennett. We had a good dinner in the private dining room. Gilbert brought in his talking warblers which pleased the children greatly. In the afternoon Mr. Bennett & I went to the Athletic Club for a walk & lunch. C. & I dined again at 7 P.M. at the Hennings' with Pearl & Margaret.

Wea. FRIDAY 30 Ther.

Partly cloudy with W. wind. Rather cold.

Spent an hour at the museum after breakfast. Karl had a pair, large Woodcock alive in a cage. He found it in our clothes just this morning. It had been kept in doubt by one Clepton's crew. Went in town at 10.30 & spent an hour talking with Mr. DeWick & Mr. Beard about a room in British Columbia. Decided to take a plane in it with Mr. Bennett. Idea agreed to join us, yesterday. We finally worked for 2000 & got a 2% interest. Afterward called at office & at State St. just Co. Reported show of N.E. Del. in Boston Wagon Co. & Taylor Paul Henry Co. in my report card. Got home at 4.45

Wea.

SAT. DEC. 1, 1906

Ther.

Cloudy & chilly but not frosty. No snow left. Our lawn nearly as green as it was a month ago.

Spent day in Museum writing letters & bird notes. The Woodcock still alive and bright looking but very quiet, does not move all day.

Dr. Townsend called in P.M. bringing out some interesting birds obtained in Labrador - a Gyrfalcon, Horned Lark etc. He gave me a Black Duck, a young Lark & a young White-crowned Sparrow.

Wea.

SUNDAY 2

Ther.

12°

22°

Clear with light N.W. wind. The coldest day thus far. A light snow fell last night from during the ground.

Spent most of day in Museum writing letters. No calls, no birds, some Hawk Sparrows, in the Garden.

The captive Woodcock improving in health & spirits. He began flying about dinner & kept it up at intervals for fifteen minutes. I watched him from my arm chair at a distance of 4 feet & saw him capture & swallow two earthworms.

Wea.

MON. DEC. 3, 1906

Ther.

Cloudy & warmer. Snowing all day but not too much. The flukes something as they feel in Boston. In Cambridge about an inch of snow covered the ground by night.

Spent day in Boston shopping for Christmas. Bought a number of antique things (some of them for the farm house) at Cooney's. Also visited the "Art & Craft" store & some book stores. Got out at 6.30. Attended Natural Club meeting in the evening.

Wea.

TUESDAY 4

Ther.

30° min

14° max

Brilliantly clear & intensely cold with strong N.W. wind. To Mrs. Camp. Took at 11 A.M.

to attend meetings of two visiting committees of which I am a member. Dr. Chew & Dr. Tolson, Mr. Balch, & Dudley Pickman were there. Got back to the Scudder's to lunch & spent P.M. in my own Museum writing letters.

C. was taken with a severe attack of his old pain this noon but it soon passed off.

Wea.

WED. DEC. 5, 1906

Ther.

Clear calm, much warmer.
 Gilbert & I took 8.34 train to Concord.
 James met us at station with "Betty"
 On reaching farm I changed my clothes
 & with James & Charley walked to
 Pine Hill where we cut a lot of white
 pine to send to Cambridge. I visited
 the cabins. It was charming along the
 river & indeed everywhere in the woods
 & fields. Saw many birds & squirrels.
 Worked in the house after dinner &
 took 4.20 train back to Cambridge.

Wea.

THURSDAY 6

Ther.

Stormy with snow changing to sleet &
 finally to rain. Wind N. E.

About 2 inches of damp heavy snow fell
 before day broke. The snow melted
 most of it before daylight.

I spent the entire day in the
 Museum writing letters. No calls,
 no birds. During the four temporary
 days I have seen but one bird (a
 Blue Jay) in our garden.

Received a number of mounted birds
 from James at Putnam. The coffee
 Woodcock died yesterday from

Wea.

FRI. DEC. 7, 1906

Ther.

Clear with high N. W. wind. Early
 morning mist. Temperature falling through
 day & evening very cold (17° at 4 P. M.)

Spent most of day in Museum writing
 letters & notes. James came down from
 Concord with a load of pine boughs.
 Mary Genovese came to lunch at the
 Seabrooks. She, C. & I walked down to
 Dr. Wolcott's after lunch to see his
 chrysothrix. A single Chickadee was
 the only bird seen in the garden.

Wea.

SATURDAY 8

Ther.

Clear with light N. W. wind.
 Intensely cold.

Spent day in Museum writing
 letters & notes. No birds saw specimens
 visited the Seabrooks. No calls.

The specimens (dressed heads) which
 I took to the A. O. U. meeting last
 month and left at the Smithsonian
 were returned today.

Went to the Dramatic Club play
 this evening with Sam & Susan. It
 was a very good comedy.

Wea.

THUR. DEC. 13, 1906

Ther.

16°

Forenoon sunny; afternoon cloudy. Little or no wind. Warmer.

34°

Spent day in Museum. I am still working at trifling but I think, necessary tasks - writing letters, filing or copying notes, clearing out desk drawers. Then there is the preparation of gifts for Christmas which is taking much time. Gerald H. Thayer writes me from Monadnock N. H. that he has just shot a ♂ Evening Grosbeak & seen two Hawk Owls, four Grosbeaks & Redpolls and "several" others, he says.

Wea.

FRIDAY 14

Ther.

26°

Brilliantly clear with light W. wind.

Spent most of day in Museum doing up Christmas presents, writing a few letters and planning for some new book cases in the hall way, of which we are greatly in need. Mr. Chase of Boston telephoned this morning that some 20 ducks which he thinks are Red Br. Mergansers were swimming in the Ball Bay Basin on the Cambridge side. There were there yesterday about the same hour (9 a.m.) C & I walked to Elmwood with Holly just after dinner. No birds in garden.

Wea.

SAT. DEC. 15, 1906

Ther.

Raining steadily most of the day, a cold rain that wasted the snow & ice but little. The sidewalks are still dangerously slippery.

C. went to Boston, Gilbert & Concord with the plumber to change a pipe there. I spent the day in the Museum - when I am still putting over trifling things. Walter & I walked inside at the books. No calls. A Flicker in the Garden, 4 Crows & a number of Gulls flying over it.

Wea.

SUNDAY 16

Ther.

30°

35°

Cloudy, calm, mild. Snow nearly all gone this morning.

Go to St. John's church with C. at 9.30 a.m. Spent remainder of forenoon in Museum writing letters.

Miss Allyn & her nephew dined with us at the Sanders at 1.30. At 3.30 I met Will Stone at the Museum.

He stayed about an hour.

C. & I took tea at the Thayers'. Miss Allyn there.

Wea. MON. DEC. 17, 1906 Ther. 30°
34°
Cloudy, calm, mild.

Spent day in Museum. Cleared up cupboards, took cases etc. discarding & burning books of old m.s., frog sheets, catalogs & other trash that has been accumulating here for years.

To Boston at 5:30. Meeting of Fish & Game Ass. at Copley Sq. Hotel. Dinner Com. 6-6:30; dinner 6:30-7:30 Business meeting 7:30-9:30. Got home at 11:30.

Wea. TUESDAY 18 Ther.

Clear & cooler but not really cold. N. W. wind.

Spent day in Museum. Walter Gilman & I worked on the books & promptly discarding many & putting the rest into better shape. My cousin Cheryl Hayes called in P. M. Arthur Orinbrook invited me to a dinner given by the Merchants Club this evening to Dr. Grayfell but I feel too tired to go.

Wea. WED. DEC. 19, 1906 Ther. 7°

Clear and cold with almost no wind.

Worked at Museum up to 10:45 when G. & I went to Miss Thompson's school to some interesting Christmas exercises by the children. Then I went to Boston. Called at office & at Dimick's office & bought a few presents. Attended meeting 7-8 at Green Gables Hotel 4-5 P. M. Got home at 6 P. M. The W. D. Club at Mrs. Sewall's 7-10:45 P. M. They all came & we had dinner 11 in van der Wea. 2:30 from dinner & dinner 3:30 THURSDAY 20 Ther.

Cloudy with heavy rain at evening.

To Boston at 10:30 to meet Dr. & Mrs. Gehring at the Lenox at 11. At 12:30 the Doctor & I went to North Union station where he took 1:15 train for Portland. I checked a bunch of traps & then called at one office, at Dimick's & at Mrs. Sewall's. Saw Mr. Leitch. Agreed to take 2 shares in the Shorelandish gold mine, one for Mrs. Sewall. Then after Dr. G. & I divide between us. Got home at 6 P. M.

Wea. FRI. DEC. 21, 1906 Ther.

Cloudy with fair warm rain. -
The snow is wholly gone, the ice
nearly so; the grass comes out very
green again on the lawn.

Spent day in Museum working
with Walter transferring books to the
new cases. Went in town in late P. M.,
dined alone at Youngs at 5.30,
attended evening meeting (6.30-10.30)
Committee on Legislation N. Y. S. P. Soc.
Delegates present from Lyon, Warren &
Burlington Co. Conn. very interesting meeting.

Wea. SATURDAY 22 Ther.

Cloudy and mild.

Spent forenoon in Museum working
on books. To Harvard Sq.
at noon. Bought a number of
plants at Carbon's. Back to
lunch at the "Sandwich", at
3 P. M. went to a birth-day
reception at Col. Higginson's (he
is now 84 years old). Fine singing
by vocal quartet. About 25 people
called. C. has had a severe headache
the past two days but is better now.

Wea. SUN. DEC. 23, 1906 Ther.

Cloudy, snowing fitfully. About 4 inches
of damp snow fell last night changing
to rain & sleet. It is good sleighing
again. Spent A. M. in Museum
writing letters. In P. M. C. had
aband to me & I went on some
errands for her. We were to have
gone to a Christmas gathering at the
Chapman's this eve. but the snow was
too much. Sons (3) wrote cards & a
White Cr. Nutcracker in the class in
front of the Seaboard, Buckingham St.

Wea. MONDAY 24 Ther.

Partly cloudy, calm, cold 13°
20°

Spent forenoon in Museum
working on the books. To Harvard Sq.
at noon for food Christmas shopping.
Took Christmas gifts about the
neighborhood in P. M. To the Museum
at 5 o'clock. Mrs. Cobb, Irving Fisher
& C. had dressed my Phoebe with
Christmas gowns. We all took tea there
together & read aloud by the open fire.
C. & I opened our presents later & walked
- back to the Seaboard at 10 P. M.
A Rockwell Street party came to Museum
at 11 P. M.

Wea.

TUES. DEC. 25, 1906

Ther.

Cloudy & cold with a heavy snow storm from 9-12 a.m.

Mrs. Scudder & I took breakfast with Ingersoll & Mrs. Bowditch. Then we had a Christmas tree for the baby.

C. went to church with Julia Mansfield. I met C. at North Station to take 11.50 train for Andover where we dined with A. & B. & Brown & his family, Mr. & Miss Perkins.

Returned to Boston by 4.09 train, took tea at Parker's heard the Mass. at Stuyvesant Hall & got home at 10 P.M.

Wea.

WEDNESDAY 26

Ther.

Partly cloudy. Warm. Calm.

Spent day in Museum working on the rearrangement of the books. C. came over in P.M. She has given me a conveyance which I am to keep in my study. I gave her one which is at Mrs. Scudder's.

Red-bellied Nuthatch ♀ eating seeds.
Chickadee - one found dead by museum class

Purple Finch - a grey bird approached but calling itself but did not eat any of the seeds. It was at the corner of the lawn.
Blue Jay - heard several

Wea.

THUR. DEC. 27, 1906

Ther.

Morning brilliantly clear. Afternoon cloudy. Calm: Mild.

Spent day in Museum working with Walter rearranging the books

Wea.

FRIDAY 28

Ther.

Cloudy, calm, mild

Spent forenoon in Museum working on the books with Walter.

To Boston just after lunch. Called at office and said good by to Arthur Estabrook who left to night for Porto Rico.

Next went to Dimick's office and remained there until 6.30 when he & I dined at Long's. At 7.30 our Committee on Legislation met at Long's. Delegates came from various parts of the State. We had an interesting discussion & broke up at 10 P.M.

Wea.

SAT. DEC. 29, 1906

Ther.

Forenoon sunny; afternoon cloudy.
 Very warm, the snow & ice melting fast.
 To Mus. Comp. Inst. at 10 a.m.
 Spent forenoon with Parden going over
 his collection of eggs & nests &
 destroying a lot of worthless ones.
 Got back to lunch. Spent P. M.
 in Museum writing letters etc.
 It is still good sleighing but the
 side walls are bare & dry again.
 I see very few birds in the garden.

Wea.

SUNDAY 30

Ther.

Cloudy, Calm, mild.

Spent forenoon in Museum writing
 letters. C. read aloud to me after
 lunch. I called on the Almy's later
 & took tea at the Thayer's with
 C. Mrs. Thayer, Loring, Miss Allyn
 & Miss Johnson. Called on the
 Russell's at 8.30 & stayed until 11.30
 talking with Joe. Offered him a chance
 to go into Derricks' good name which
 he will consider.

Wea.

MON. DEC. 31, 1906

Ther.

Cloudy & mild with heavy rain.
 Wind N. E. Snow about all gone.
 To Boston with C. at 10 a.m.
 We first went to State House to attend
 unveiling Dan French's statue of Roger
 Wolcott. Saw Dan & Mrs. French,
 Dick & Mrs. Dana, Newton Mackintosh,
 Will Vaughan, for Warner. C. & I called
 at Congress Street. Saw some about noon &
 saw Dr. Grenfell. We then went to Parker
 for lunch. I afterwards called on my
 office & on Derricks & got home at 4 P.M.
